ABSTRACT

Synthia Amadha. 1402050163. *Gender Argument on Anies Baswedan's Instagram*. English Education Program. Faculty of Teachers' Training and Education. University of Muhammadiyah Sumatera Utara. Medan. 2018.

This research dealt with gender argument on Anies Baswedan's instagram. It was aimed at investigating types of gender argument on Anies Baswedan's instagram and factors of argument on Anies Baswedan's instagram. This research was conducted by using qualitative descriptive research. The source of data was script of Argument on Anies Baswedan's instagram about inauguration of governor DKI Jakarta. There were 88 gender arguments found in Anies's Instagram, namely arguing, quarrelling, and gossiping. It consist of 21 (28.87%) for gossiping included of 13 male and 8 female, 34 (38.63%) for arguing included of 14 female and 20 male, and 33 (37.50%) for quarrelling included of 16 female and 17 male. The most dominant of argument used by gender in Anies's Instagram was arguing. It means that male and female have same strong in giving argument especially in inauguration of governor. The different social status is not the factor underlying male and female make arguments. Male and female have same strong in giving argument which aimed to keep establishing and maintain their opinion, ideas, and interaction in giving argument. It is indicated by the various of types of the arguments they used.

CHAPTER I

INTRODUCTION

A. The Background of Study

In social life, gender difference issue or cultures can cause miscommunication between male and female. Therefore, being familiar with language and gender concepts and understanding language and gender issues can help people acquire clearer and deeper understanding of gender differences in society. In the study of language and gender, there are numerous studies that have been described and raised many issues on the differences between males and females in their way take communications. Tannen (1990:85) stated that male and female have different ways in communication, males tend to use language to gain the argument, while females use the language to negotiate closeness and intimacy. Females use rapport talk to build and maintain relationships, while men use report talk to communicate factual information. It can be inferred that male and female have different objectives in using the language and they differently treated the language in their communication. Males use the language to gain the argument while females use the language to negotiate closeness and intimacy.

Male and female uses the same language but they are interact with one another differently. It is just because male and female have their different aim in communicating. Males tend to show their status and powers while female just want to seek the close relationship to another. Besides, men's goals in using language tend to be about getting things done, whereas women's tend to be about

making connections to other people. Men talk more about things and facts, whereas women talk more about people, relationships and feelings. That is why, the way of man in using language is competitive, reflecting their general interest in acquiring and maintaining status; women's use of language is cooperative, reflecting their preference for equality and harmony in interaction and communication.

According to Eckert (2003) argument involves giving reasons and evidences and using rational principles of inference to support a position. Males are more argue in debating while females are more quarrel. Men do more argue than women. Men have the tendency to involve in arguing in order to look stronger than women. Women have the tendency to avoid the arguments because women are easily keeping the relationship with another. Learning gender differences is useful to understanding the other gender's way of communication in order to prevent miscommunication, especially in Instagram.

Instagram is media of communication which encourages the users of Instagram to argue directly. Sometimes, the users of Instagram do not have any consideration to argue. This situation makes people argue as easy as they want. The users of Instagram in which men and women has the same opportunity to involve in arguing. The circle of communication in Instagram does not links to people whom you know only, but also it links to the official accounts of government, the official account of national and international news, the official account of politics, the official account of celebrities, and in this case, male and female feel free to participate in discussing all the latest issue in internet. It allows

people to argue and discuss the issue directly. It means that men and women have the opportunity to express their idea and feeling. For example, the users of Instagram can communicate directly to Anis Baswedan by mentioning his official accounts @aniesbaswedan.

For example, how male and female are giving argument to some official accounts @Sorayuliyani: *great,, hehe J (keren,, hehe J)*

@Yuli_annka jiya: *great... but how long time waiting its pose sir.. ihihhi... it's like many times changed style to take picture hehehe.... I think he likes to take picture.. but ok lh (keren... tapi nunggu berapa lama pak posenya... ihihhi.. pasti banyak kali ubah pose photo hehehe.... kayaknya suka photo.. tapi oke lah)*

@iqball_stwn: *keep speaking!!!, sky over sky @bern20142 (jaga omongan bos!!!, diatas langit masih ada langit @bern20142)*

@bern20142: *why??? the over of sky is cloud. you're stupid. Fankui fankui. (kenapa?? diatas langit ya ada awanlah. bego amat sich lu. Fankui fankui)*

From the argument above, the researcher assumes that males and females have the different way in arguing. Females like to support another argument by using conjunction which is showing an optional event. While males like to talk about the issue by showing their angers and reply another argument by giving critiques and judgement through the conditioned event.

Based on the phenomenon of the language use in Instagram, it is believed that man and women are different in expressing their arguments in Instagram, the researcher will conduct this study entitle **“Gender Argument on Anies Baswedan’s Instagram.”**

B. Identification of Problem

Based on the background of study, the problems were identified as follows:

1. Males were more argue in debating while females are more quarrel.
2. Men had the tendency to involve in arguing in order to look stronger than women because women keeping the relationship with another.
3. Gender's way communicating can misunderstanding

C. The Formulation of the Problem

Based on the identification of problem, the problems were formulated as the following:

1. What types of arguments used by male and female on Anies Baswedan's instagram?
2. What factors do affect male and female in arguing on Anies Baswedan Instagram?

D. The Objectives of the Study

In relation to the problems of the study above, the objectives of the research were:

1. to investigate types of gender arguments used by male and female on Anies Baswedan's instagram, and
2. to describe factors do affect male and female in arguing on Anies Baswedan Instagram.

E. The Scope and Limitation of the Study

The scope of this study focused on gender argument and it was limited types of Argumen on Anies Baswedan's instagram about inauguration of Governor DKI Jakarta 2017-2022, 16th October 2017.

F. The Significances of the Study

Findings of the study were expected to be theoretically, practically and linguistically relevant in some respects

1. Theoretically, the findings of the study were expected to enrich language and gender theory, thus it can be additional resources or references for both lecturers and students who are interested in language and gender in social media.
2. Practically, the findings were expected in giving the information for
 - a. The lecturers of linguistics, to be aware their social status and interlocutor consideration in expressing their argument, thus they can argue as well as they can.
 - b. The students of UMSU, to be an additional reference of male and female's linguistics features in communication.
 - c. The researcher, it can enrich knowledge about gender argument in social network especially in Instagram.

CHAPTER II

REVIEW OF LITERATURE

A. Theoretical Framework

1. The Nature of Gender

Gender is embedded of thoroughly in our institutions, actions, beliefs and our desires, that is appears to us to be completely natural. Gender is a social concept that distinguishes the roles of men and women in various activities of life. Gender allows women or men to do something strongly. Unconsciously, everything we act, believe, desire are the natural behaviour that appears as the identity who we are (men or women). Male and female uses the same language but they are interact with one another differently. It is just because male and female have their different aim in communicating. Males tend to show their status and powers while female just want to seek the close relationship to another.

It has been generally assumed that gender is the same with sex. Actually, gender is different from sex. Sex is given since people were born, while gender is something which is culturally constructed by society. Wood (2009) stated that although, many people use the terms gender and sex interchangeably, they have distinct meaning. Sex is designation based on biology, whereas gender is socially constructed and expressed.

In most cases, sex and gender go together; most men primarily show the gendered characteristic of male in their communication, and most women do. In some cases, however, a man expresses their idea in communication with gendered

characteristics of female, and vice versa. Wood (2009) said that biology influences how we develop, but it doesn't absolutely determine behavior, personality and so on. Wood's statements of sex and gender above are also supported by Holmes. In accordance with Holmes (1992), Sex has come to refer to categories distinguished by biological characteristics, while gender is more appropriate for distinguishing people on the basis of their socio cultural behavior, including speech. Further explanation both of sex and gender will be elaborated below:

Eckert and Ginet (2003) stated that sex is a biological categorization based primarily on reproductive potential, whereas gender is the social elaboration of biological sex. Sex is based in a combination of anatomical, endocrinal and chromosomal features. The statement above means that sex is biological characteristics which have given naturally since people were born. Sex is something which differs male and female physically and biologically.

According to West and Zimmerman in Eckert (2003), gender is not something inherent when someone was born with, and not something which someone has, but something which someone does. It means that gender is behavioral characteristics. People show their gendered characteristics through something which they do or act, such as the way they interact or communicate with other people.

Wood (2009) stated that gender is a considerably more complex concept than sex. Gender is neither innate nor necessarily stable. It is defined by society and expressed by individuals as they interact with others in their society. Gender

is a social, symbolic construct that varies across culture, over time within a given culture, over the course of individual's life spans, and in relation to the other gender. It is a social construction as the means by which society jointly accomplishes the differentiation that constitutes the gender order. Since gender is defined and constructed by society, gender is learned. From infancy on, people are encouraged to learn how to embody the gender that society prescribes for them. For examples: in interaction with other people, women are more polite than men. Then, men are more strictly to the point in delivering their idea while they interact with their communication partner.

But, although individuals learn gender and embody it, gender is not strictly personal. Eckert and Ginet (2003) said that gendered performances are available to everyone. In *Language and Gender* that gender development does not end with childhood or adolescence. Gender continues to be transformed as we move into the market place, as we learn to act like secretaries, lawyers, managers, janitors. And it continues to be transformed as our family argument changes, as we learn to be wives and husbands, mothers and fathers, aunts and uncles, sisters and brothers, grandmothers and grandfathers. As someone ages, he / she continues to learn new ways of being men and women: what's expected from the teenager is rather different from expectations for a woman in her mid-forties and those expectations differ from those for a woman approaching eighty. From their explanation, it can be concluded that gendered can be developed, it is developed since someone was born and it will be transformed by following their development.

Eckert and Ginnet (2003) stated that learning to be male or female involves learning to look and act in particular ways, learning to participate in particular ways in relationships and communities, learning to see the world from a particular perspectives. Gender is by no means the only aspect of social identity that one learns in this developmental story. Gender interacts with other hierarchies based in such socially constructed categories as class, age, ethnicity, and race. From this statement, it is clear that gender is learned. Because gender involves a restriction of choice, severe constraints on behaviour for all, as well as asymmetric, it must be not just learned but taught, and enforced.

Gender is not an individual matter at all, but collaborative affair that connects the individual to the social order. As Eckert and Ginnet (2003) have noted that children learn gender initially by having other people do gender for them, and eventually take over the responsibility for their own performances and supporting the performances of others. Gender is not something which someone has, but something that someone does. As they get older, they get better at masking the raw performances they are engaging in, but more importantly, their gendered performances also become second nature. The fact remains that gender requires work, and when aspects of gender are not consistently performed at levels of society they can wither away. From the statements above, it is concluded that gender is influenced by environment or society. Everyone has their own role to learn, teach and enforce gender. Gender is not an individual matter but social matter. Based on those theories, the researcher agrees that gender is different from sex. Gender is behavioral characteristics, it is not biological characteristics. It can

be developed and transformed by following human development. It can also be learned, taught and enforced, because gender interacts with other hierarchies in social life, such as: class, age, ethnicity, and race.

2. Types of Gender Argument

Argument is one of speech activity. According of Besnard & Hunter (2008) that there are three types of arguments, namely (1) gossiping, (2) quarrelling, and (3) arguing. The other two types namely (1) gossiping and (2) quarrelling are discussed shortly on this sub topic. Since, this study focused on arguing.

a. Gossiping

Gossiping is seen as “idle talk; groundless rumour...tittl-tattle”; to discuss matters relating to one’s trade or profession; business, private concerns of others or pass on confidential information. According to Deborah Jones; the first one who developed this approach “the word gossip”, is descends from Old English “god sih”, which originally meant something similar to “godparent” or “supportive friends”. It is similar to Eckert, he states that gossip as a characterization of much of women talk’s while offering non-standard understanding of just what gossip is. It can be sympathetic and understanding. Women feel free to say everything that they want to say in this event because there were no men around them.

Cameron’s study about the women’s topic which gathers all kind information such washing clothes, shopping and preparing food. That is the gossip

that more closed to women's speech activity than men's speech activity. The gossiping may occurs to both man and woman. In other words, gossiping is not female specific. For example @gema_muslimin: where is Metro tv? (*Metro tv na mana nie?*)

@m.r.f.f69: Metro tv hidden (*Metro Tv na ngumpet.* @andremamosa: eis.. you too.. you must see his speech so that you know. (*eiss.. kamu juga.. maka nya liat utuh pidatonya yar tau.*)

b. Quarrelling

Quarrelling is emotional primarily a manifestation of temper and often leading to rupture in friendly relations among participants. Quarrelling has more personal orientation on general not on subject matters. The quarrelling happens because of the feeling and emotional personally. Quarrelling involves a struggle of a will and a display of temper that is why women are easier to quarrel than men Eckert (2003). For example @hanung_str_wardhana: move there to buy apartment!!! *iya pindah aja tuh kesana beli apartemen nya!! (padahal duitnya buat pemasukan lippo group).* @tuktuk778: kaum munafik yang sok suci... NKRI lo.. bukan punya arab cina ato agama tertentu... agama jadi dalil alat politik aja.. padahal isi nya serakah dan nafsu dunia.. yang menghalalkan segala cara.. yang penting seiman.. halloo.. jangan jual2 agama.. malu sama Negara tetangga Malaysia..

c. Arguing

According to Eckert (2003) argument involves giving reasons and evidences and using rational principles of inference to support a position. Argument is the speech activity which needs the rational thinking to survive in one opinion. That is why someone must have the logic reason and evidence to achieve the good debate in the arguing situation. Not only must have the logical thinking but also must be strong and intellectual to be powerful in the arguing situation. The arguing need is a reason, so the reasons offered in proof, to induce belief, or convince the mind; reasoning expressed in words.

Gender arguments are differentiated in terms of sex. Men have the tendency to involve in arguing in order to look stronger than women. Women have the tendency to avoid the arguments because women are easily keeping the relationship with another. Argument can mark the strength of participants' connection to one another, Eckert (2003). It implies that the connection between male and female is affected by the strength they have. Man is socially accepted as stronger than women in most community and this truth may leads to the different realization of arguments based on this category. Argument realization of which participants are either male and female or female and female. In terms of preferences of doing arguments, gender is also different. Men tend to argue while women less to argue.

For example @sriwahyuni_biogas: Congrat for inauguration of Anies Baswedan and Sandiogo Uno. Hopeful, it can give inovatif in building our country

(Selamat atas pelantikannya pak. Selalu berinovasi dalam pembangunan bangsa dan Negara).

@namnam_23: congrat for inauguration of our governor. Hpeful, he can be leader of DKI which honest and can be proud of society at DKI *(Selamat atas pelantikan bapak gubernur dan wagub, Semoga bisa mmenjadi pemimpin DKI yang amanah dan menjadi kebanggan masyarakat DKI).*

This difference is visually shown in table 2.1 in 9k,the context of speech activity with the purpose of making the difference between gender in the prefernce of argument.

Table 2.1
The Preference of Men and Women in Speech Activity
Supported by Eckert, 2003

Gender/speech activity	M e n > w o m e n	W o m e n > m e n
G o s s i p i n g	L e s s	M o r e
Q u a r e l l i n g	L e s s	M o r e
A r g u i n g	M o r e	L e s s

This table shows how the preference of men and women in Speech Activity.

1. Gossiping = Men > Women and Women > Men, it means that men and women have the oppurtunity do the gossip, but women is more than men in doing a gossiping.
2. Quarrelling = Women > Men, it means that women prefer to quarrel.
3. Arguing = Men > Women, it means that men prefer to argue.

3. The Ways Gender Make Argument

According to Johnson (2009) an argument is a collection of statements organized in a way that highlights connection between those ideas to demonstrate

that because some of the statements in the collection are believed to be true, other statements in the collection should be accepted as true. According to Besnard and Hunter (2008) an argument is a set of assumptions such as information from which conclusions can be drawn together with a conclusion that can be obtained by one or more reasoning steps. The assumptions used are called the support of the argument, and its conclusion which singled out from many possible ones is called the claim of the argument. The support of an argument provides the reason for the claim of the argument.

According to Boole in Barwise (1999) types of arguments is divided into five types, namely: (1) negation, (2) conjunction, (3) disjunction, (4) conditional, (5) biconditional. All of these types is described as the following. Negation is defined as types of argument that is used to negate the logical arguments which used the symbol (\sim). The notion commonly expressed in English uses terms like *not*, *it is not the case that*, *non~* and *un~*. In first order logic, negation always applies this symbol to the front of a sentence to be negated. From this type, the argument is built up to create the negation form to negate the available truth value. In other word, the purpose of using this type is giving the negative claims. The use of negation in arguments brings to the one logical negation which can be accepted as true or false. Negotiation include of arguing in types of argument.

Conjunction is defined as type of arguments that is used to conjoin two equal statements in the logical argument which uses the symbol of notion (\wedge). It is normally expressed in English using terms like *and*, *moreover*, and *but*. In first

order logic, this connective is always placed between two sentences. From this type, the argument is built up to create the truth value by giving two true acceptable statements equally. It means if one of the sentences is false, the value will be false. The use of conjunction in arguments brings to the one logical truth which can be accepted as true or false. This type include of gossiping.

Disconjunction is defined as type of argument that is used to join two sentences that exactly at least one and possibly both of the two disjoined sentences is true which used the symbol of notion (\vee). It is usually expressed in English using *or*. It is usually placed between two sentences. From this type, the argument is built up to create the optional value by giving the two arguments which one of the arguments is true. The falsity will be happen if both arguments are false. The use of disconjunction in argument brings to some logical truth which can be accepted as true. This type include of quarrel.

Conditional is defined as types of argument to combine two sentences to form a new sentence that is used the symbol of notion (\rightarrow). The first sentence is called the antecedent of the conditional, and the second sentence is called the consequent of the conditional. From this type, the argument is built up to create some true possibilities by giving antecedent and consequence. The argument can be accepted as true value even the antecedent and consequence do not have the same value. Only if antecedent and consequence are false, the argument will be not accepted as true. This type include of arguing.

Biconditional is defined as types of arguments which used to express a sentence of the for $P \leftrightarrow Q$ is true if and only if P and Q have the same truth value,

that is, either they are both true or both false. It usually use the symbol of notion is (\leftrightarrow). From this type, the argument is built up to create only one true possibility from the available facts by giving antecedent and consequence. The argument can be accepted as true values if and only if both antecedent and consequence have the same value which is truth or falsity. This type include of gossiping.

4. The Factors of Gender Arguments

According to George (2006) and Eckert (2003) men and women do argument in different ways. All these ways are grouped into two, namely; (1) social status and (2) power, and the two factors are referred to the underlying factors of the gender arguments that are discussed in details in the following sections.

a. Social Status

The first factor is social status, as a category or position a person occupies that is a significant determinant of how she or he will be defined and treated. It is one of the most important social structures that organize social interaction. Social status allows us to organize our lives in consistent and predictable ways. There are two social statuses, namely: (1) high status and (2) low status. People whose status sets are comprised of high rank status who have more powerful in the interaction such as employer, lawyer, teacher, or interviewer will be more stronger in the interaction than people whose low rank status who have less powerful in the interaction such as employee, witness, student, or interviewee. Consistently, it belongs to either male or female. People, male as well as female whose high rank

status will establish and maintain the interaction whether they know those people or not. People, male as well female whose low rank status will maintain the interaction rather than establish the interaction. While, people whose the same or equal status will share and treat the interaction in common way.

The different social status is the factor underlying male and female make arguments. Male with higher social status argued by conditional to female and male with lower status, male with equal status argued by conjunction to female and male with equal status, male with lower status argued by conjunction to female and male with higher status. Female with higher social status argued by negation, disjunction and biconditional to male and female with lower status, female with equal status argued by conditional and negation to male and female with equal status, female with lower status argued by conjunction and conditional to male and female with higher status.

It indicates that male are wiser and more aware with their social status than females because females are likely more considerate with their interlocutor. Hence, it is obviously seen that females with different social status have the strength in expressing their arguments. It is indicated by the various of types of the arguments they used.

b. Power

The second factor is power. Men and women have the different power in doing arguments. Men are more power than women. In this term, boys are power focused, girls are solidarity focused. It is very clear that one of the most factor that

affect the male in language use is based on power. This factor covers the two factors that have mentioned above. Males are more competitive and interested in autonomy which shows their strength in their socialization. It is similar to females; the solidarity is the base of their language use.

For instance, a small boy will begin to play with his friend by saying "*I'm Superman and you have to follow me*". While girls like to spend their time in small group. In other words they just want to talk to their best friends and they are more establishing reciprocal relation and exchanging roles. For instance, a small girl will tell her friend "You can be the doctor now and I'll be ill". In conclusion, male is more powerful in language use because they are competitive focused while females are solidarity focused in language use.

Moreover, those factors are related to the types of arguments which elaborated above. Either male or female with higher status have tendency to use biconditional and conditional truth, then it may be inferred that either male or female open only possibility for the interlocutor to consider their argument. In other words, male and female with higher status appeared to be very powerful of their own and provided space for other's opinion, whereas male and female with lower status have tendency to use the other types of arguments. Since they seem to be less powerful of providing space as the alternative arguments.

5. Characteristic of Gender Language

Men almost effortlessly raise topics which women most often support. Women's topics were not only less actively supported, but were frequently and actively discouraged. Women tend to give verbal responses to their interlocutor's statements and give compliments. These combinations of these behaviors appear to place men in the position of controlling conversation, while women do the "interactional housework" to keep the conversation going. For example, when a woman talked with a man, the woman usually would use the favorable languages in order to gain better impressions from the man, while man would not avoid using the disfavored languages.

When speaking, men often emphasize their masculinity and other forms women use to symbolize femininity, and that this is more basic than social class. Women ask more questions than men. It is a reflection of general insecurity resulting from long-term oppression. There are some characteristic which different between man and women in communication based on Lakof's theory (2000), namely:

a. Women talk more/less than men

According to Lakof, the amount we talk is influenced by who we are with and what we are doing. They also add that if we aggregate a large number of studies, it will be observed that there is little difference between the amount men and women talk. On the one hand, in a recent study, Dr. Brizendine states that women talk three times as much as men. On the other hand, Drass, in an

experiment on gender identity in conversation dyads found that men speak more than women.

b. Women break the ‘rules’ of turn-taking less than men

Studies in the area of language and gender often make use of two models or paradigms that of dominance and that of difference. The first is associated with Dale Spender, Pamela Fishman, Don Zimmerman and Candace West, while the second is associated with Deborah Tannen. Dominance can be attributed to the fact that in mixed-sex conversations, men are more likely to interrupt than women. It uses a fairly old study of a small sample of conversations, recorded by Don Zimmerman and Candace West at the Santa Barbara campus of the University of California in 1975. The subjects of the recording were white, middle class and under 35. Zimmerman and West produce in evidence 31 segments of conversation. They report that in 11 conversations between men and women, men used 46 interruptions, but women only two. The difference theory was also summarized in Tannen’s book *You just don’t understand* in an article in which she represents male and female language use in a series of six contrasts:

1. Status vs. support

This claims that men grow up in a world in which conversation is competitive they seek to achieve the upper hand or to prevent others from dominating them. For women, however, talking is often a way to gain confirmation and support for their ideas. Men see the world as a place where

people try to gain status and keep it. Women see the world as “a network of connections seeking support and consensus”.

2. Independence vs. intimacy

In general, women often think in terms of closeness and support, and struggle to preserve intimacy. Men, concerned with status, tend to focus more on independence. These traits can lead women and men to starkly different views of the same situation.

3. Advice vs. understanding

Deborah Tannen claims that, to many men a complaint is a challenge to find a solution: “When my mother tells my father she doesn't feel well, he invariably offers to take her to the doctor. Invariably, she is disappointed with his reaction. Like many men, he is focused on what he can do, whereas she wants sympathy.”

4. Information vs. feelings

Culturally and historically speaking, men's concerns were seen as more important than those of women, but today this situation may be reversed so that the giving of information and brevity of speech are considered of less value than sharing of emotions and elaboration.

5. Orders vs. proposals

It is claimed that women often suggest that people do things in indirect ways - “let's”, “why don't we?” or “wouldn't it be good, if we...?” Men may use, and prefer to hear, a direct imperative.

6. Conflict vs. compromise

This situation can be clearly observed in work-situations where a management decision seems unattractive - men will often resist it vocally, while women may appear to accede, but complain subsequently. In fact, this is a broad generalization - and for every one of Deborah Tannen's oppositions, we will know of men and women who are exceptions to the norm.

c. Women use more standard forms than men

In the literature, Trudgill found a kind of sex differentiation for speakers of urban British English. His study demonstrated that “women informants”... use forms associated with the prestige standard more frequently than men”. His study also discovered that male speakers place a high value on working class nonstandard speech. He offers several possible reasons for the finding that women are more likely to use forms considered correct: (1) The subordinate position of women in English and American societies makes it “more necessary for women to secure their social status linguistically”; and (2) while men can be rated socially on what they do, women may be rated primarily on how they appear, so their speech is more important. As for American literature, research has not shown a noticeable difference in terms of the usage of standard forms by men and women.

d. Women’s speech is less direct/assertive than men’s

Lakoff published an influential account of women’s language in her book entitled *Language and Woman’s Place*. In another article she published a set of

basic assumptions about what marks the language of women. Among them she made some claims that women:

- (a) Hedge: using phrases like “sort of”, “kind of”, “it seems like”, and so on.
- (b) Use (super)polite forms: “Would you mind...”, “I'd appreciate it if...”, “...if you don't mind”.
- (c) Use tag questions: “You're going to dinner, aren't you?”
- (d) Speak in italics: intonational emphasis equal to underlining words - so, very, quite.
- (e) Use empty adjectives: divine, lovely, adorable, and so on
- (f) Use hypercorrect grammar and pronunciation: English prestige grammar and clear enunciation.
- (g) Use direct quotation: men paraphrase more often.
- (h) Have a special lexicon: women use more words for things like colors, men for sports.
- (i) Use question intonation in declarative statements: women make declarative statements into questions by raising the pitch of their voice at the end of a statement, expressing uncertainty. For example, “What school do you attend? Eton College?”
- (j) Use “wh-” imperatives: (such as, “Why don't you open the door?”) Speak less frequently
- (k) Overuse qualifiers: (for example, “I think that...”)
- (l) Apologize more: (for instance, “I'm sorry, but I think that...”)

- (m) Use modal constructions: (such as can, would, should, ought - “Should we turn up the heat?”)
- (n) Avoid coarse language or expletives
- (o) Use indirect commands and requests: (for example, “My, isn't it cold in here?” - really a request to turn the heat on or close a window)
- (p) Use more intensifiers: especially so and very (for instance, “I am so glad you came!”)
- (q) Lack a sense of humor: women do not tell jokes well and often don't understand the punch line of jokes.

6. Description of Instagram

Instagram, the photo and video-sharing social medium, is rapidly gaining popularity and preference with more than 200 million users. Instagram has been popular since 2010. It is a social media application that allows people to share with others their daily life activities, lifestyles, habits and interests in pictures and videos. Instagram is easy to operate, and it only requires downloading, choosing a username and password, and finally posting pictures that others see. People can either upload posts taken instantly or stored ones from their mobile phone gallery. Like other social networks, Instagram is built on having followers like family, friends or strangers who follow the updates of Instagrammers' life via posted pictures and videos. Created profiles include personal information and a picture to identify the account. People either create public, directly accessed, accounts or private ones that require seeking permission from the Instagrammer before

viewing the posts. Once following Instagrammers, followers can view the pictures and videos' timelines. People viewing the posts can interact with what they see by pressing the —Like button or provide arguments to express their opinions on the posts.

6.1 Feature of Instagram

Users can upload photographs and short videos, follow other users' feeds, and geotag images with the name of a location. Users can set their account as "private", thereby requiring that they approve any new follower requests. Users can connect their Instagram account to other social networking sites, enabling them to share uploaded photos to those sites. In January 2011, Instagram introduced hashtags to help users discover both photos and each other. Instagram encourages users to make tags both specific and relevant, rather than tagging generic words like "photo", to make photographs stand out and to attract like-minded Instagram users. In September 2011, a new version of the app included new and live filters, instant tilt-shift, high-resolution photographs, optional borders, one-click rotation, and an updated icon. In August 2015, Instagram started allowing users to upload full-size landscape and portrait photos and videos onto the service, dropping the previous requirement of a square frame. In August 2016, Instagram added a zoom feature that allows users to pinch-to-zoom the screen to virtually zoom in on photos and videos. In September 2016, Instagram removed Photo Maps, which previously allowed users to see a map of their geotagged photos. An Instagram spokesperson stated that "Photo Map was not widely used, so we've decided to remove the feature and focus on other priorities"

In December 2016, Instagram introduced a feature letting users save photos for later viewing. Bookmarked posts get added to a private page in the app. The feature was updated in April 2017 to let users organize saved posts into different collections.

In February 2017, Instagram announced that users would be able to upload up to ten pictures or videos to one post, with the content appearing as a swipeable carousel. The feature originally limited photos to the square format, but received an update in August to enable portrait and landscape photos instead. In May, Instagram updated its mobile website to allow users to upload photos, and to add a "lightweight" version of the Explore tab. Later in May, Instagram added an "Archive" feature, letting users hide posts in a private storage area, out of visibility for the public and other users. The move was seen as a way to prevent users from deleting photos that don't garner a desired number of "likes" or are deemed boring, but also as a way to limit the "emergent behavior" of deleting photos, which deprives the service of content. In August, Instagram announced that it would start organizing comments into threads, letting users more easily interact with replies.

6.2 Biografi of Anies Baswedan

Anies Rasyid Baswedan was born 7th May 1969. He is Indonesian academic, activist, and politician who currently serves as governor of Jakarta since October 2017. A student activist and political analyst before entering public

service, he served as rector of Paramadina University before being appointed to be Minister of Education and Culture in Joko Widodo administration.

US magazine foreign policy named him as one of the top 100 public intellectuals in the world in May 2008 and the world economic forum included him in 2009 young global leaders. In April 2010, the Japanese magazine foresight, a Tokyo based international affairs magazine, published a special report entitled: 20 person 20 years. This report lists 20 person to be watched in the next 20 years, Baswedan is included in that list along with name such Vladimir Putin, David Miliband, Hugo, and Rahul. He is the only person from Southeast Asia included in this list.

B. Previous Studies

Here are some data presented as the results of research which has been done by the previous researchers in the area of arguments, those researches which had been conducted by other researchers have different subjects, those studies are:

Jeon (2012). Who examined male and female's interaction in online debate, the results showed that female were significantly less likely to engage in argumentation with other females than with males, providing one explanation for why females might post fewer messages than males. Males were equally likely to respond to females and males, with males showing a tendency to engage in more argumentative exchanges with other males than with females. The interactions that initiated the least to most discussion were female to female, male to male, female to male, and male to male interactions, with male to male exchanges

generating 36% more messages in discussion threads than female to female exchanges.

Bamman (2013). He has presented a study of the relationship between gender, linguistic style, and social networks, using a novel corpus of 14,000 users of Twitter. Prior quantitative work on gender often treats this social variable as a binary; we argue for a more nuanced approach. By clustering Twitter feeds, he finds a range of styles and interests that reflects the multifaceted interaction between gender and language. Some styles mirror the aggregated language-gender statistics, while others contradict them. Next, we investigate individuals whose language better matches the other gender. He finds that such individuals have social networks that include significantly more individuals from the other gender, and that in general, social network homophily is correlated with the use of same-gender language markers. Pairing computational methods and social theory thus offers a new perspective on how gender emerges as individuals position themselves relative to audiences, topics, and mainstream gender norms.

Ahmed (2016). Online Social Networks (OSNs) have become part and parcel of everyday communication among people. Many organizations and individuals have taken this opportunity to direct the use of social media for educational purposes. The current study investigates the use of OSNs, namely Facebook, Twitter, WhatsApp, Google+, and LinkedIn, on English learning. Specifically, the study focuses on the difference in use between males and females. Sixty Yemeni EFL learners participated in the study; 37 were females and 23 were males. The results reveal that both men and women have equal

access to OSNs and perceive them as equally beneficial for their English skills. There was only one statistically significant difference concerning the frequency of using Facebook as men reported higher frequency of use than their female counterparts.

C. Conceptual Framework

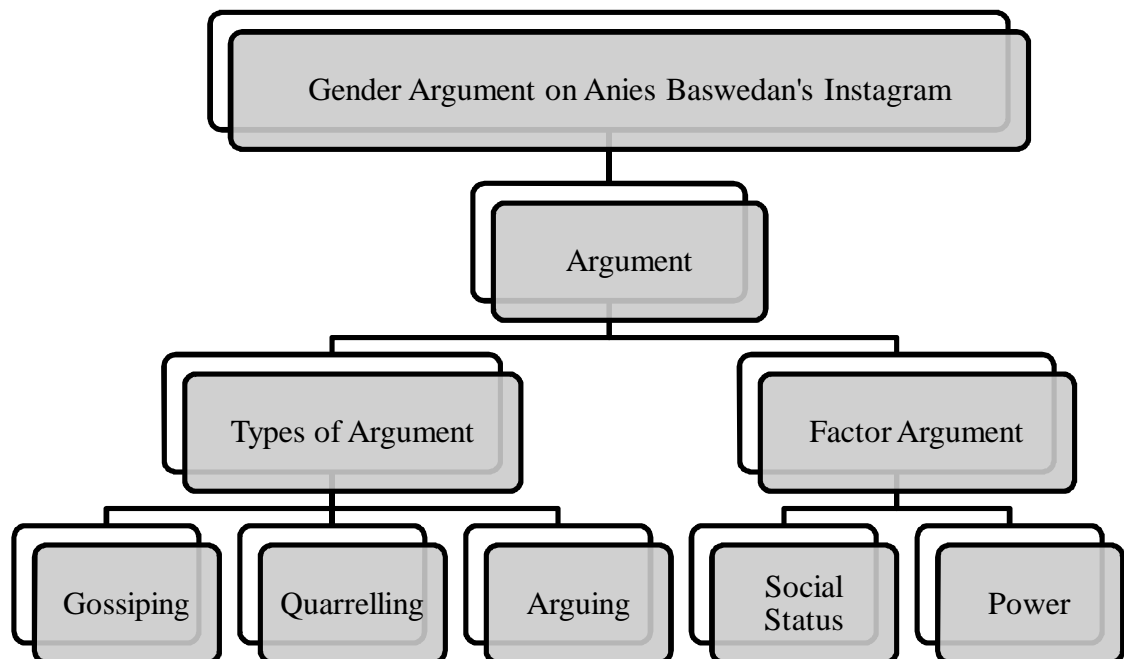

Language is used by people to communicate to each other, to get interact with friends, between male and female. Gender is one construct that has been widely studied in relation to communication. The gender of the communicator as one of the main factors influencing content as well as the style of communication. A person's language use depends on whom the person is talking with. The speech community, a group sharing common language specifics in which an individual participates, plays an important role in the linguistic style of the individual.

Man is socially accepted as stronger than women in most community and this truth may lead to the different realization of arguments based on this category. Argument realization of which participants are either male and female or female and female. In terms of preferences of doing arguments, gender is also different. Men tend to argue while women less to argue.

On the other hand, social status also affects the language. Either male or female with higher status have tendency to use biconditional and conditional truth, then it may be inferred that either male or female open only possibility for the interlocutor to consider their argument. In other words, male and female with

higher status appeared to be very powerful of their own and provided space for other's opinion, whereas male and female with lower status have tendency to use the other types of arguments. Since they seem to be less powerful of providing space as the alternative arguments. People, male as well as female whose high rank status will establish and maintain the interaction whether they know those people or not. People, male as well female whose low rank status will maintain the interaction rather than establish the interaction. While, people whose the same or equal status will share and treat the interaction in common way.

CHAPTER III

RESEARCH METHODOLOGY

A. The Research Design

This research was conducted by applying descriptive qualitative design to explain gender argument on Anies Baswedan's instagram. The researcher described arguments used by male and female about inauguration of Governor DKI Jakarta 2017-2022, 16th October 2017. It was done to know types of argument which include of gossiping, arguing, and quarrelling and to know factors affect male and female which include of social factor, and power.

In this research referred to library research where the researcher observed all documents which include of argument on Anies Baswedan's instagram. Then, the researcher analyzed arguments on instagram to know types and factor. The researcher replied to observe all documents in instagram to know whether data found more or not.

B. The Source of the Data

In qualitative research, there were two sources, namely primary source and secondary source. Primary sources were original documents (correspondence, diaries, reports, etc.), relics, remains, are artifacts. These were the direct outcomes of events or the records of participants. Meanwhile, secondary sources, the mind of a nonobserver comes between the event and the user of the record.

In this research used secondary sources from the collections of Instagram arguments about inauguration of Governor DKI Jakarta 2017-2022, 16th October 2017. All the data had been transcribed based on the subject's number of the arguments. The subjects of the research were males and females.

C. Instrument of Data Collection

The researcher was the key instrument of the research. It means that everything which was related to this research controlled by the researcher. The supporting instrument of data collection in this research is document. Document was used as proof that the researcher has done this study and as tool to help the researcher in collecting data.

D. Technique of Collecting the Data

The data was collected by applying a documentary technique. Documentation mean the technique collecting data in the research which based on searching data in the form of textbook, report of the research, newspaper, magazine, journal, internet sites, TV, radio which considered relevant with the research. The procedures of collecting data were:

1. Collecting the data from instagram about inauguration of Governor DKI Jakarta 2017-2022, 16th October 2017.
2. Selecting gender argument which posted in timeline of Instagram.
3. Then transcribing arguments found as recurrence of data.
4. Arguments were transcribed and rewritten into types of argument.

5. The transcription were analyzed by applying Miles, Huberman and Saldana Model (2014).

E. The Technique of Analyzing the Data

The data analysis of this research was analyzed based on Miles, Huberman and Saldana (2014), there were three steps of data analysis namely data condensation, data display, and drawing and verification conclusion.

1. Data condensation

Data condensation referred to the process selecting, focusing, simplifying, abstracting and transforming the raw data that appear in written-up field notes.

(1) Selecting

The researcher selected arguments which posted in timeline of Anies Baswedan's Instagram that related to types of arguing.

(2) Focusing

The researcher concerned the attention to the appropriate data. In this study, the researcher focused on the types of argument was used by male and female, and factors affect male and female in arguing.

(3) Simplifying

Simplifying helped the researcher to simplify the data. The data that were collected need to be simplified so the researcher easy to analyze it.

(4) Abstracting

Abstracting means summarized the data. In this research, the researcher summarized the data related to types of argument used by male and female on Anies Baswedan's instagram.

(5) Transforming

All the data that selected and categorized was transformed into table, because data display of this research is the table.

2. Data Display

Data display provided an organize compressed assembly of information that permits conclusion drawing. A display can be an extended piece of text or a diagram; chart or matrix that provides a new way of arranging and thinking about the more textually embedded data. Data display, permits the researcher to extrapolate from the data enough to begin to identify systematic patterns and interrelationship. At the display stage, additional, higher order categories or themes maybe emerge from the data that go beyond those first discovered during the initial process of data reduction.

Data display can be extremely helpful in identifying whether a system of working effectively and how to change it. The qualitative researcher needs to discern patterns among various concepts so as to gain a clear understanding of the topic at hand. Data are displayed using a series of flow charts that map out any critical paths, decision points, and supporting evidence that emerge from establishing the data for each site. Looking at the displays helps us to understand

what is happening and to do something based on that understanding. In this step, the data will be organized to answer the research problems.

Related to this study, data display answered the questions from the problem of the study, what types of argument used by male and female on Anies Baswedan's instagram, and what factors affect male and female in arguing on Anies Baswedan's instagram.

3. Conclusion : Drawing/verifying

As drawing requires a researcher begins to decide what things mean. The data is noticed regularities, patterns (differences/similarities), explanations possible configurations, casual flows and propositions. This process involves stepping back to consider what the analyzed data mean and to access their implications for the questions at hand. Verification integrally linked to conclusion drawing, entails revisiting the data as many times as necessary to cross-check or verifying these emergent conclusions.

It is the last steps to draw the conclusion from the data shown in data display. In this step, the researcher showed and described the findings after displaying the data. The conclusions of this research included of types of argument used by male and female on Anies Baswedan's instagram, and factors affect male and female in arguing on Anies Baswedan's instagram.

CHAPTER IV

DATA AND DATA ANALYSIS

A. Data

The data of this study were taken from the collections of arguments about inauguration of Governor DKI Jakarta 2017-2022, 16th October 2017. It was obtained arguments collected from followers in Anies's Instagram. There were some types of arguments which showed to be analyzed. There were 88 data about arguments found in Anies's Instagram about inauguration of Governor DKI Jakarta which consisted of 21 for gossiping included of 8 female and 13 male, 34 for arguing included of 14 female and 20 male, and 33 for quarrelling included of 16 female and 17 male to be analyzed which related to the theory. After conducting analysis of types of argument in all utterances that found in Anies's Instagram, it could be seen in Appendix III and the findings were presented in Table 4.1:

Table 4.1
Types of Argument in Anies's Instagram

No	Types of Argument	Gender		Number	Percentage
		Female	Male		
1	Gossiping	8	13	21	23.87%
2	Arguing	14	20	34	38.63%
3	Quarrelling	16	17	33	37.50%
Total				88	100%

From table 4.1 above, it found that there 88 data of argument found in Anies Baswedan's Instagram which consisted of gossiping amount 21 data included of 8 female and 13 male, arguing amount 34 data included of 14 female

and 20 male, and quarrelling amount 33 data included of 16 female and 17 male. From the result above, it concluded that the most dominant of types of argument was arguing and male more using gossiping, arguing, and quarrelling. It means that male have strong in arguing, gossiping, and quarrelling.

B. Data Analysis

In analyzing the data, the researcher followed three steps of data analysis, which was referred to Miles, Huberman and Saldana's analysis namely data condensation, data display, and drawing/verifying conclusion. Data condensation focused on the process of selecting, focusing, abstracting, simplifying and transforming data. Data display referred to the ways to organize the information that permits conclusion drawing. And drawing/verifying conclusion which was the analysis should be allowed to begin to develop conclusions regarding the study. The data were collected and selected to know types of arguments used by participant in giving comment about inauguration of governor DKI Jakarta. Then, arguments had been transcribed into written text. The arguments of male and female participants on instagram were analyzed by using three types of arguments based on Besnard and Hunter's theory. The transcription of male and female participants on instagram was enclosed in Appendix I.

1. Types of Argument in Anies's Instagram

There were three concepts types of arguments were found in Anies's instagram, namely gossiping, arguing, and quarrelling.

a. Gossiping

Theoretically, Gossiping is seen as “idle talk; groundless rumour...tittl-tattle”; to discuss matters relating to one’s trade or profession; business, private concerns of others or pass on confidential information. Gossiping is topic which gathers all kind information without there is no someone around them. In this case, gossip not only more closed to women’s speech activity but also men’s speech activity. In this concept, the researcher found 21 data in Anies’s instagram. There were three examples which put by researcher, such as

***fadhli0785** There was channel TV that do not want to broadcast. We know what TV and reason is. Congrat for Mr Anis and brother Sandi (Ada stasiun yg gak mau nyiarin. Udah faham lah ya kan tv apa dan alasannya. Selamat utk Pak Anies dan bg Sandi).*

helmi_al_helmi Metro tv was not broadcast, although I’m a big fan of Metrotv (Metrotv ko g disiarkan ya, pdahal saya pnggemar berat metrotv.)

From example above, argument was shown by **Fadhli0785** (male) and **helmi_al_helmi** (male) referred to gossiping because he told about TV that do not want broadcast about inauguration of Governor DKI. Here, TV referred to Metro TV that did not want give information to viewer about inauguration of Anies Baswedan. In this concept, **fadhli0785** gave his argument built with two available facts, which is accepted as true in advance, and then it may be inferred that the senders of the instagram do not open any possibilities for the receiver to consider their arguments.

@fajarhidayat_15 Metro TV loss? hahahahahaha. (Metro tv hilang, tumben?? Hahaha. Atittttttt hhahahaha).

@yasserburhanciasli Why did not there metro tv? hahahahaha(METRO TV kok Gak ada? Hahahahaaa).

From statement above, Fajar (male) used irony style in his argument where he argued that Metro TV is news channel which give information about politics, economic, and other information. However, in reality when Anies win in election of governor in DKI Jakarta suddenly Metro Tv did not deliver about it. Then, yasser (male) discussed about Metro TV too.

Another example of gossiping, namely *cindylyst@denisa_herlina Metro TV is its clever & sportsmanship, it will show the truth .. keep calm to governor, you will be broadcast so that be seen by smart people, is it right @metrotv (metrotv kan tv nya orang2 pinter&sportif, pasti nayangin kalo sesuai kebenaran lah..tenang aja gubernur u bakal disiarin koq..biar diliat orang2 pinter, ya kan @metrotv)*

cindylyst@khusnulmaarif it was broadcasted 15.30, but maybe Mr Anies's teams were not have friendship (nyiarin 15.30, cm mgkn team nya pak Anis ga reken ga dicantumin ya.. hehe).

From argument which showed by **cindylyst** (female) referred to irony in deliver something. She told to **denisa_herlina** (female) about Metro TV even though Metro TV did not join in this discussion. They told behind Metro TV may be if Metro joined in this discussion, they were afraid to give bad argument to it. In their gossip, their topics mention metro TV to move on and proof the truth.

Besides, **cindylyst** discussed this matter related to Metro TV to **khusnulmaarif** (female). Their statements which used by two women have equal status. It was showed normally expressed using terms *but*.

fitma_indrawan Metro TV still broken heart. Isn't it move on, it is?
(Metro TV sakit ati. Gak bisa move on kah,,)

khusnulmaarif Metro TV did not broadcast (tumben metro g
siarin.)

From example above, based on the Eckert's theory that characterization of gossiping is someone feel free to say everything about what they want to saying this event because that there were no people around them. Fitma (female) together with khusnul (female) discussed about Metro TV because in Anies's Instagram there were no Metro TV either editor, producer, or writer, etc. In addition, they always judge Metro TV that it never moves on from Ahok. That is why, many bad information about Metro TV and hot news in media social especially instagram. It was showed from the next comment.

b. Arguing

Theoretically, arguing involves giving reasons and evidences and using rational principles of inference to support a position. In this concept, there were 34 data of arguing found in Anies's Instagram, such as:

radhogates if it can be his official busway/ other public transportation to be able to exemplify to the citizens of Jakarta **J** (Klo bisa kendaraan dinas nya

busway / kndraan umum lainnya pak agar bisa mncontohkan ke warga jkt khususnya J)

olandrevly23@aniesbaswedan Don't forget to close Alexis with your promise sir ,, if you can do it (jangan lupa tutup alexis ya pak sesuai dengan janji kampanye-nya tapi 'KALO BISA')

From argument above, they negotiation in arguing to remember Mr Anies for his promises when he campaign to build house 0%, close Alexis, etc. Besides, two men arguing with high status where they used negotiation argument in Anies's instagram. And radhogates gave argument rational thinking to survive in one opinion. In arguing, they must have the logic reason and evidence to achieve the good debate in the arguing situation. One of example of arguing, such as

pujianthonysasmita you as like as ummar ibn khattab and Sultan Muhammad Alfatih, a fathanah, siddiq, and justice leader (Jadilah seperti ummar ibn khattab dan sultan muhammad al-fatih,pemimpin yang amanah,shiddiq dan adil serta mengayomi semuanya).

zaldefabregas Congrat for Mr @aniesbaswedan & Mr @sandiuno. We hope that you can be a leader in Jakarta who can drive out communist and then, Jakarta is the capital of Indonesia not stepmother of Indonesia (Selamat Buat Bpk. @aniesbaswedan & Bpk @sandiuno Atas Pelantikan Nya Semoga Di Kepemimpinan Bpk Ibukota Indonesia Raya Terjauh Dri Paham Komunis . Serta Kota Jakarta Mendapat Julukan Ibukota Nya Ibu Kandung Bukan Ibukota Nya Ibu Tiri).

The statement above showed an argument in which two equal logic statements are required to be true. Since the argument is built with two available facts, which is accepted as true in advance, then it may be inferred that the sender of the instagram do not open any possibilities for the receiver to consider their arguments. In other words, the sender, female lower status do not appear to be very confident in providing space for other's opinion, rather she provided the available facts which have been accepted to be true.

Another example of Arguing, such as *interiorplg please Mr Anies, you must do something with this account @aniesbaubadan ... This account have vilified and insulted you, we have known this account came from other team (Tolong pak anis akun yg menjelekan anda di tindak @aniesbaubadan .. akun ini muncul dan terus menghina anda.. kita sudh tau akun ini di gerakan oleh kubu mana...)*

From statement above, arguing showed that **interiorplg** (male) care to Anies about someone who had created bad account @aniesbaubadan. As Eckert said that argument involve giving reasons and evidences and using rational principle. Based on statement above, as rational Anies as governor may be not created @aniesbaubadan. That is why, this example was arguing which need a reason, so the reasons offered in proof, to induce belief, or convince the mind; reasoning expressed in words.

c. Quarrelling

Theoretically, quarrelling is emotional primarily a manifestation of temper and often leading to rupture in friendly relations among participants. In this concept, there were 33 data found in Anies's Instagram. The researcher put three example of quarrelling, such as:

isabella_desy@lolychan1 Diiihh... why do you noisy? Don't you receipt with inauguration of governor of DKI Jakarta?? you broken heart and angry to me.. you're crazy!!! (Diiihhh....lah lo ngapain sewot, lo gak terima sama pelantikan Gubernur & Wagub??? Lo sakit hati terus lampiasin ke gw....Lah ngapain juga lo mesti sakit hati, GILA ya lo!!!)

sardew_sibarani why do you noisy @isabella_desy. Manage your mouth (koq loe yg ribet @isabella_desy . urus az mulut loe sendiri).

From statement above, it showed quarrelling among them. This example related to Eckert's theory which stated that quarrel happens because of the feeling and emotional personally. And it was showed from conversation between @isabella_desy (female), @lolychan1 (male), and @sardew_sibarani (male). They showed dislike to Anies as governor with low status social. Their argument didn't build in supporting inauguration of governor DKI Jakarta. As generally, women prefer to quarrel.

credenceren_This is truly bad news ever. Just like Trump's election, I support Ahok like way too much, this is a racism form! I don't understand people choosing the wrong side and make the country racism again, you foal louth-some evil little cockroach you know that.. all my friends are heathens take it slow, wait

for them to ask you who you know, please don't make any sudden moves, you don't know the half of the abuse..

From example above, credencere (male) showed dislike to Anies Baswedan. He argued that this election of governor was racism form where many people choose Anies to be Governor. He also compared Anies with Ahok even though Ahok is not perfect yet for be governor. It was proven from his statement *"I support Ahok like way too much"*.

Another example of quarrelling, such as: *ichagrisca@lolychan1 sampah lu nyinyirin mulu kalo kaga Suka ngapain kepoin Pak Anis ,, milih aja kaga lu mau minta janji"nya hahaha dasar ahoker ,, Gubernur gua Baik, rendah hati gk kyk mantan gubernur lu njiirrr punya mulut kaga bisa d jaga suka hina" islam + nyinyirin org lagi makanya pengikutnya juga sama hahahha.*

From statement above, it showed high emotional and feeling in giving argument until happen quarrel among them. In this case, men and women have high emotional and low social status because they felt their argument was strong to maintain opinion.

Based on the analyzed, it concluded that men and women prefer to gossiping, quarrelling, and arguing in Anies's instagram which proven from comment, suggest, critic, wish for Anies Baswedan as new governor DKI Jakarta.

2. Factor of Argument in Instagram

Based on theory of factor argument that gender who have high rank status are more powerful in interaction and it was found in Anies's Instagram that male has higher status than female who seems to be wise and keeps establishing and maintaining the interaction based on types of arguments he produced, namely arguing. While female who has higher status than her interlocutor tends to keep maintaining the interaction, she is also solidarity focused in using the language in supporting Anies Baswedan.

Moreover, Eckert also said that gender who have low status are less powerful in interaction and it was found in Anies's Instagram which showed that male has lower status who seems to be confident but unwise. He tends to keep maintaining the interaction due to the lower status he has, but he using the language roughly as like as female who has lower status seems to be very confident and tries to quarrel among them to maintain their opinion until they made mock each other.

Male has equal status with female who produced one type of argument, namely gossiping which indicates his wise and a bit competitive. They told something based on the fact that Metro tv didn't want to broadcast about inauguration of Governor DKI Jakarta.

Hence, it is obviously seen that females and males with different social status have the strength in expressing their arguments. It is indicated by the various of types of the arguments they used.

C. Research Findings

After analysis of the data obtained in this study, it can be argued some of the findings as follows:

1. There were 88 data of types of gender argument found in Anies's Instagram, namely arguing, quarrelling, and gossiping. It consist of 21 (28.87%) for gossiping and 34 (38.63%) for arguing, and 33 (37.50%) for quarrelling. It can be concluded that men and women prefer to gossiping, and quarrelling in Anies's instagram to keep maintain their opinion each other with showed unwise and less competitive in giving argument. And most of them either men and women who seems to be wise and keeps establishing and maintaining the interaction and giving support, motivation for Anies Baswedan. It concluded that the most dominant of types of argument was arguing and male more using gossiping, arguing, and quarrelling. It means that male have strong in arguing, gossiping, and quarrelling.
2. It indicates that male are wiser and more aware with their social status than females because females are likely more considerate with their interlocutor. Hence, it is obviously seen that females and males with different social status have the strength in expressing their arguments. It is indicated by the various of types of the arguments they used.

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

A. Conclusions

Based on the analysis, the conclusions were stated as the following:

1. There were three types of arguments, namely gossiping, quarrelling, and arguing. It was found that there were 21 data for gossiping included of 8 male and 13 female, 33 data for quarrelling included of 14 female and 20 male, and 34 data for arguing included of 16 female and 17 male. The most dominant of argument used by gender in Anies's instagram was arguing. It means that male more using gossiping, arguing, and quarrelling and male have strong in giving argument especially in inauguration of governor.
2. Factor do affect male and female in arguing on Anies Baswedan's instagram was social status. It indicates that male who have high social status are wiser and more aware with their social status than females because females are likely more considerate with their interlocutor. It concluded that male who high social status has strong in giving argument especially in inauguration of governor.

B. Suggestions

In relation to the conclusions, suggestions are offered as the following:

1. The lecturers of linguistics, to be aware their social status and interlocutor consideration in expressing their argument, thus they can argue as well as they can.
2. The students of UMSU, to be an additional reference of male and female's linguistics features in communication.
3. The researcher, it can enrich knowledge about gender argument in social network especially in Instagram.

919vi@saharaahmadsyafiih Aamiin yaa rabbal alamin salam kenal jua.. Hahaa iya, itu buktinya stadium pak ahok yg berani tutup kan. Mereka yg sering sweping n razia mana berani tutup, hayaaahh.. Di selipin amplop juga mereka mah pulang dengan secara teratur jamannya ahok doang nih banyak taman bermain utk bocah, jaman ahoknya doang nih banyak marbot yg di berangkatkan umrah dan haji. Sedangkan di sisi lain, penista sesungguhnya menipu puluhan jamaah yg ingin bertamu ke rumah Allah. Tapi justru ahok yg di beri gelar penista

agama, padahal apa yg di blng ahok itu benar. Banyak sekali orang2 menggunakn ayat2 hanya utk kepentingan golongan. Menjual agama demi mencapai tujuan. Dan satu lagi itu korupsi alquran tdk di beri gelar penista agama.. Justru mereka itu pensita sesungguhnya, di lakukan secara sadar dan sengaja. Sebenarnya banyak sakit hati kami semasa kampanye hingga saat ini, mereka menakar surga neraka kami hanya karna pilkada.. Hahaa padahal mungkin kami lebih banyak yg perduli sama orang2 di bawah kami ketimbang mereka tapi dengan mudahnya mereka vonis neraka buat kami. Ya senyumin saja.. Karna Allah tdk tidur, dan Allah sdh membuktikan janji2nya.. Dia membuka aib satu persatu orang2 yg mendzalimi pak ahok

ristanadasiregar NEVER GET BETTER

919vi@saharaahmadsyafiih kita lihat saja tontonan mulai hari ini anies n sandi memimpin jakarta, saya yakin akan banyak dagelan fix reklamasi tdk bisa di stop kan, dan rumah dp 0% masih perlu kajian dan regulasi. Yah ho ohh.. BI dan OJK sdh punya ketetapan regulasi dan aturan kali, dari awal sdh di jelaskan. Tapi mereka yg katanya gelas doktor atau orang2 pintar tetap saja mengacuhkan itu, dan tetap mengumbar janji maniesnya, dan lagi2 rakyat kecil dengan senang hati di beri janji manies kita lihat saja nanti bagaimana ke depannya jakarta ini. Aku mah nyengirin aja dah met aktifitas, have a great day.. Semoga berkah yg di jalani hari ini

5.	ucok4036 Saya mendukung , tapi Warga Jakarta juga harus mengerti akan kesadaran diri sendiri dan Lingkungan Jakarta sekitar agar Maju Pak Anies & Sandi
6.	919vi@saharaahmadsyafiih Aamiin yaa rabbal alamin salam kenal jua.. Hahaa iya, itu buktinya stadium pak ahok yg berani tutup kan. Mereka yg sering sweping n razia mana berani tutup, hayaaaahh.. Di selipin amplop juga mereka mah pulang dengan secara teratur jamannya ahok doang nih banyak taman bermain utk bocah, jaman ahoknya doang nih banyak marbot yg di berangkatkan umrah dan haji. Sedangkan di sisi lain, penista sesungguhnya menipu puluhan jamaah yg ingin bertamu ke rumah Allah. Tapi justru ahok yg di beri gelar penista agama, padahal apa yg di blng ahok itu benar. Banyak sekali orang2 menggunakn ayat2 hanya utk kepentingan golongan. Menjual agama demi mencapai tujuan. Dan satu lagi itu korupsi alquran tdk di beri gelar penista agama.. Justru mereka itu pensita sesungguhnya, di lakukan secara sadar dan sengaja. Sebenarnya banyak sakit hati kami semasa kampanye hingga saat ini, mereka menakar surga neraka kami hanya karna pilkada.. Hahaa padahal mungkin kami lebih banyak yg perduli sama orang2 di bawah kami ketimbang mereka □ tapi dengan mudahnya mereka vonis neraka buat kami. Ya senyumin saja.. Karna Allah tdk tidur, dan Allah sdh membuktikan janji2nya.. Dia membuka aib satu persatu orang2 yg mendzalimi pak ahok
7.	919vi@saharaahmadsyafiih kita lihat saja tontonan mulai hari ini anies n sandi memimpin jakarta, saya yakin akan banyak dagelan □ □fix reklamasi tdk bisa di stop kan, dan rumah dp 0% masih perlu kajian dan regulasi. Yah

	<p>ho ohh.. BI dan OJK sdh punya ketentuan regulasi dan aturan kali, dari awal sdh di jelaskan. Tapi mereka yg katanya gelas doktor atau orang2 pintar tetap saja mengacuhkan itu, dan tetap mengumbar janji maniesnya, dan lagi2 rakyat kecil dengan senang hati di beri janji manies kita lihat saja nanti bagaimana ke depannya jakarta ini. Aku mah nyengirin aja dah met aktifitas, have a great day.. Semoga berkah yg di jalani hari ini</p>
8.	<p>credenceren_This is truly bad news ever. Just like Trump's election, I support Ahok like way too much, this is a racism form! I dont understand people choosing the wrong side and make the country racism again, you foal louthsome evil little cockroach y'know that.. all my friends are heathens take it slow, wait for them to ask you who you know, please dont make any sudden moves, you dont know the half of the abuse..</p>

Kinds of Argument Found in Anies Baswedan's Instagram

No	Data	Types of Argument		
		Gossiping	Arguing	Quarrelling
1.	sarahsesilia@rio_pranata7 alhamdulillah masih waras mas, coba dipikir dgn hati yg dingin mas intimidasi2 di masjid terhadap umat dan bahkan thd jenazah apakah merupakan proses kampanye yg sehat dan non sara. Saya benar2 berharap Pak Anis bs amanah menjalankan tugas dan rakyat bs merasakan kinerjanya		ö	
2.	cend06 Aamiin pak semoga pemimpin kali ini bisa menjaga lisannya, perbuatannya, etikanya. Serta jujur, dan memihak rakyat kecil. Membangun jakarta lebih baik. Jgn seperti yg sudah2 rakyat bersertifikat rumah digusur ternyata buat asing		ö	
3.	fitma_indrawan Metro TV sakit ati. Gak bisa move on kah,, khusnulmaarif tumben metro g siarin. fajarhidayat_15 Metro tv hilang, tumben?? Hahaha. Atittttttt hhahahaha yasserburhaniasli METRO TV kok Gak ada? Hahahahaaa	ö		
4.	rosida1912 Selamat atas terpilih nya bapak.. Semoga jkt lebih baik lagi.. salam kami warga rt15 rw01 kelurahan cideng kecamatan gambir yg di gusur paksa pt kai dan masih mengharap keadilan untuk mendapatkan rumah susun..		ö	
5.	ucok4036 Saya mendukung , tapi Warga Jakarta juga harus mengerti akan kesadaran diri sendiri dan Lingkungan Jakarta sekitar agar Maju Pak Anies & Sandi		ö	
6.	919vi@saharaahmadsyafiih Aamiin yaa rabbal alamin salam kenal jua.. Haha iya, itu buktinya stadium pak ahok yg berani tutup kan. Mereka yg sering sweping n razia mana berani tutup, hayaaahh.. Di selipin amplop juga mereka mah pulang dengan secara teratur jamannya ahok doang nih banyak			ö

	<p>taman bermain utk bocah, jaman ahoknya doang nih banyak marbot yg di berangkatkan umrah dan haji. Sedangkan di sisi lain, penista sesungguhnya menipu puluhan jamaah yg ingin bertamu ke rumah Allah. Tapi justru ahok yg di beri gelar penista agama, padahal apa yg di blng ahok itu benar. Banyak sekali orang2 menggunakn ayat2 hanya utk kepentingan golongan. Menjual agama demi mencapai tujuan. Dan satu lagi itu korupsi alquran tdk di beri gelar penista agama.. Justru mereka itu pensita sesungguhnya, di lakukan secara sadar dan sengaja. Sebenarnya banyak sakit hati kami semasa kampanye hingga saat ini, mereka menakar surga neraka kami hanya karna pilkada.. Hahaa padahal mungkin kami lebih banyak yg perduli sama orang2 di bawah kami ketimbang mereka tapi dengan mudahnya mereka vonis neraka buat kami. Ya senyumin saja.. Karna Allah tdk tidur, dan Allah sdh membuktikan janji2nya.. Dia membuka aib satu persatu orang2 yg mendzalimi pak ahok</p>			
7.	<p>919vi@saharaahmadsyafiih kita lihat saja tontonan mulai hari ini anies n sandi memimpin jakarta, saya yakin akan banyak dagelan fix reklamasi tdk bisa di stop kan, dan rumah dp 0% masih perlu kajian dan regulasi. Yah ho ohh.. BI dan OJK sdh punya ketentuan regulasi dan aturan kali, dari awal sdh di jelaskan. Tapi mereka yg katanya gelas doktor atau orang2 pintar tetap saja mengacuhkan itu, dan tetap mengumbar janji maniesnya, dan lagi2 rakyat kecil dengan senang hati di beri janji manies kita lihat saja nanti bagaimana ke depannya jakarta ini. Aku mah nyengirin aja dah met aktifitas, have a great day.. Semoga berkah yg di jalani hari ini</p>			ö
8.	<p>credenceren_This is truly bad news ever. Just like Trump's election, I support Ahok like way too much, this is a racism form!
