CHAPTER I

INTRODUCTION

1.1 Background of the study

Language is a means of communication. It transfers knowledge from one person to another and from one generation to another. The structure of language in advertisements influences the power of persuasion language which is commonly found in printed and visual media Flergin, (2014). Lists of lexicon used in advertisement are used to persuade the consumers to buy promoted products. Furthermore, Grice had pointed out that based on cooperative principle, the recipients of a social communication may have expectancy that the information which is presented by the speaker is relevant and has acceptable purpose of communication(Wänke & Reutner, (2009).

Generally, the purpose of advertisements, both in offline basis and online basis, is to persuade the recipients. Persuasion is commonly found in political campaigns, propoganda, speeches, or in advertisements, since the main aim of them is to persuade people to follow their roles or to buy their products. Actually, one of the easiest ways to find out the term of persuasion itself is in advertisements.

Advertisement exists to help to sell things. Advertisement is about the commercial promotion of the brand of one product. It is designed, consciously or unconsciously to create and strengthen consumer impressions of the brand advertised, so that they would be more likely to buy it, or to buy it more often. Doan, (2017) stated that advertising aims to capture the customer's attention, make the impression unforgettable and persuade consumers to buy the product. It is in magazines, newspapers, television, and also on the internet. Advertisement sells

goods and services to us for our use in this world. In giving information, advertising has two ways they are through electronic such as television, radio, internet, and display advertisement that is found in newspapers, magazines, catalogues, and so on.

Advertising media is still the cheapest way of making sure that a brand is broadly known and recognized. People still like to buy brands of which they have heard, and which they believe to be popular. It can be concluded that advertising is paid non personal communication from an identified sponsor using mass media to persuade or influence the audience. In advertisement, the producers try to design their products as interesting as they can, from the packaging, the quality of the products and also the way in promoting it, so that consumers are interested to buy or use its products. The producers use strategies to persuade consumers, such as through their credibility that shows their products are qualified enough to be used by giving a straight fact or logic reason of the products, and also try to arouse the audience's emotion so that consumers can feel how great their products are. This term is usually found in cosmetic products.

Ms Glow is one of the local brands that presents a series of skincare for Indonesian women. Founded in 2013, Ms Glow belongs to two friends namely, Shandy Purmasari and Maharani Kemala. The product has received a BPOM certificate so that it is proven to be safe. It is be a reason why the researcher use a Ms Glow as an object in the product can be the research. Ms Glow has a several caption in to advertising their product for example is "magic for skin" that has into strategies to make consumers interested with their product.

At the moment many media can be used to promote their products to consumers, that is a social media. Sosial media can be used as a tools to promote and introduce their products to a public. One of the social media is TikTok, because of TikTok is a visual platform in the form of music and videos that is currently very popular with everyone. TikTok is also a place for content

creators to develop their unique ideas, from tiktok we can also find out what is happening right now, there are many positive things that can also be taken from using TikTok. Therefore the short duration of Tik Tok videos is also felt to be more practical and makes it easier for promoters to promote the products they want to offer so that they become a medium in popularizing the brand through TikTok.

Many other products are compete to create a Tiktok account to promoted their consumers. In this era everything doing with a mobile phone, especially the caption from skincare beauty by Ms Glow chosen in this research because it is very interesting to study. This researchers aim to investigate about the types of the persuasive strategies and how persuasive strategies used in Ms Glow product in their advertisement. Strategy is the means by which we aim to achieve the objectives, or it is the overall way or step to get a specific goal. Persuasion strategy is plans or steps of an action to make someone believe something by giving them a good reason to do a certain purpose. Persuasion theories has been in discussion for quite some time now, as Aristotle in *Rhetoric* W. Rhys Roberts, *Trans.* (1954) discussed the strategy of persuasion is called as the concept of rhetoric or modes of proofll by means of ethos (appeals to credibility), logos (appeals to logic), and pathos (appeals to emotion). Where strategies are needed to promote the products they want to offer so that consumers are interested and want to try the products being promoted, the researcher wants to know what persuasive strategies they use so that these products can attract or influence consumers to use these products.

The researcher interested to analyzed the persuasive strategies that used by manufacturers in advertising because they are well-known brands in Indonesia, and many people don't know what kinds of persuasive strategies, therefore this research also aims to provide an explanation of how many kinds of persuasive strategies are used in this research In addition, the

advertisements also posted on online version, so that everyone around the world can access it and also can buy it anytime and anywhere easily from their gadgets. Researcher are also interested in seeing strategies they used to attract customers to buy their products, because many people don't know what strategies is the most dominant.

1.2 Identification of Problem

The problem of this research identified :

1. People don't know what kinds of persuasive strategies used in the caption of Ms Glow on Tiktok
2. People don't know how to apply the persuasive strategies in persuading consumers
3. People don't know what is the dominant of persuasive strategies in the caption Ms Glow on Tiktok

1.3 Scope and Limitation

The scope of this research focuses on persuasive strategies in advertisement product Ms Glow on Tiktok. The researcher focused on the persuasive strategies used in caption product Ms Glow on Tiktok.

1.4 Formulation of the Problem

Based on the background of the study above, the researcher formulates the problem as followed:

2. How the persuasive strategies were in the caption of Ms Glow on Tiktok?
3. What are the dominant strategies find in the caption of Ms Glow on Tiktok?

1.5 Objectives of the Study

Based on the problems of the study, the researcher expects the results of this research:

1. Found the types of persuasive strategies used in caption of Ms Glow on Tiktok
2. Describe how to apply the persuasive strategies in caption of Ms Glow on Tiktok
3. Found the dominant persuasive strategies used in caption of Ms Glow on Tiktok

1.6 Significance of the Study

The study of persuasive strategies in this research gives some benefits in both theoretically and practically as followed:

A. Theoretically :

- a. To develop the knowledge about persuasive. The writer and reader/another researcher would be understood the types of persuasive strategies that commonly apply in advertisement.

B. Practically :

- a. For the lecturer

This research would given some references about persuasive strategies in advertisement especially for EFL teacher/students by giving real example which easy to understand.

- b. For the students

This research could be a reference to do another research related to persuasive strategies.

- c. For university

This research would be used as a learning material for subject discussions, especially regarding linguistic studies and ESP.

CHAPTER II

REVIEW OF LITERATURE

A. Theoretical Framework

2.1 Persuasion

O’Keefe, (2016) also argued that there are requirements for the sender, the means, and the recipient to consider something persuasive. The main aim of persuasion is to make someone or receiver accepts and then do something from what he or she has heard from the sender. To accept and do something we want, it needs to create a basis which is basis of trust. The persuasion itself is an attempt to create conformity or agreement through trust. The people who accept the persuasion itself would be satisfied and happy, since they do that not because of the threat. Persuasion is a powerful and often positive social force. Generally, the form of persuasion is used emotive approach, means that try to arouse and stimulate the audience or consumer’s emotion.

Persuasion is the one of the ways of how human being communicates each other. Bebbe & Bebbe, (2012) stated in his work that persuasion is the process of modifying and confirming other people attitudes, belief, value, or behavior. When someone persuade, they are influencing their hearer’s attitudes, belief, value, or behavior. According to Mills (2000), persuasion is a process of changing or reinforcing beliefs, attitude, and behavior. Persuasion has two responses of the hearer that is thoughtfully and mindlessly. If the response is thoughtful, they would give intention such as listen carefully on what the speaker says then they would give a response such as an argument or ask some question. Meanwhile, if the response of hearer is mindful, they would ignore or not interested in what the speaker said and that makes the brain of the hearer

automatically locked. In fact, someone needs the evidence and logic to make a judgment and it relies on the hearer's brain.

2.2 Persuasive Strategies

Persuasion is very important in communication because persuasion can change individual or group's justification by trying to influence the beliefs and expectations of them. Keraf, (2017) stated that techniques of persuasion are divided into seven types. There are rationalization, identification, suggestion, conformity, compensation, projection, and displacement.

2.3 Types of Persasive Strategies

2.3.1 Rationalization

It is the process of using the way of thinking to give justification for the certain issues with showing the logical reason. In this strategy, the advertiser has to give the evidence to make the consumer believe and to be interested in what the advertiser is aiming for. This method also uses persuasive words such as impossible words but still makes sense or have logical reasons. The advertiser should know well about what is needed by their consumers. Whereas, the consumers would be more interest with something which showing the proof and appropriates with their attitude and belief.

2.3.2 Identification

It is the process of identifying the consumers and appropriate situations. In this technique, the advertiser should analyze their audiences or consumers with the situation accurately, whether they are children, teenager or adult. Moreover, it relevant with their job, business man, or teacher to get their responses. By identifying them, the advertiser would be easier to get audience attraction using appropriate words and a right concept of their product or services.

2.3.3 Suggestion

Suggestion is an undertake to influence or persuade people to accept a certain belief or establishment without giving a logical basis to the people who wants to be influenced. Suggestion aims to persuade consumers to admit the excellence of a product through people that have dignity to follow. The conformity between color, background, pictures, interesting word and the use of famous people of the advertisement would make the consumers influence.

2.3.4 Conformity

Conformity is a desire or measure to make themselves similar to something else. In persuasion, people who do persuasion use this strategy to conform to the beliefs that want in persuasion. Conformity and identification are often considered similar. The difference, in the identification of the speaker presents only a few things pertaining to them with the audience while in the speaker's conformity show that they were able to do and act as an audience as well. The aims of conformity strategy is to give an overview of how a product has a real ability as expected by potential consumers.

2.3.5 Projection

Projection is a technique to make something that once the subject becomes an object. A trait or disposition that a person has is no longer recognized as a nature, but is cast as the nature and character of another. If someone is asked to describe someone who is not endeared, it would try to describe something good about himself. In this projection strategy, advertisers would show weaknesses of some products that are considered competitive, and then demonstrate the benefits of using their products to show the difference between their own products and other people's products.

2.3.6 Displacement

Displacement define as a process that seeks to replace a purpose that experiences obstacles with another purpose that synchronously replaces the emotions. Change seeks to take consumers emotions whether happiness or sadness and prevent with new objects.

2.3.7 Compensation

Compensation is an action or a result of an effort to looking for a substitute for something that is not acceptable. That matter done if a situation has experienced a frustration. A writer will be able to easily persuade the audience by encouraging the reader to perform a desired action by showing make sure they have new abilities.

2.4 Advertisement

Advertisements are forms of discourse which make a powerful contribution to how we construct our identities. It tries to persuade or influence the consumer to do something although in some cases the point of the message is simply to make the consumers aware of the product or company. According to (Moriarty, Wells, & Mitchell, 2015), “advertisement is a paid non personal communication from an identified sponsor using mass media to persuade or influence an audience”. Since advertisement has power to persuade the reader, it must be a challenging job for the copywriter to create an effective advertisement.

At the root of the word, advertisement is the latin verb *advertere*, meaning to turn towards. Advertisement means the texts that do their best to get our attention, to make us turn towards them, we would not want to say everything, we pay attention to the advertisement itself. The main aim of advertisement is to benefit the advertiser materially or through some other less tangible gain, such as the enhancement of status or image.

Advertisement needs to be distinguished from the forms of representation and other activities that are directed to persuade, and influence the opinions, attitudes, and behaviour of

people such as propaganda, publicity, and public relations (Danesi & Marcel, 2010). Advertisement not only give information about a product being advertised for selling that product but also it can change people's perspective in society, on the other words advertisement can persuade people to buy products which they do not need. Advertising captions and promotional tools enable companies to introduce themselves, their products, or services. In order for an advertising caption to be effective in introducing a company or institution, it should be easily understood by consumers, and be associated with a specific brand Stewart & Clark, (1986)

2.5 The Way To Persuade Consumers

According to Aristotle, (1954), defined that there are three strategies to persuade consumer attention:

2.5.1 Ethos

Ethos is an appeal to credibility or character. The persuasive technique of ethos relates to ethics. For the ethical appeal, writers or speakers want to convince the audience that they are a credible source. Audiences listen to and believe people whom they believe are ethical. Some authors are experts in their topic, so they have credibility all ready. For the rest of us, we must convince the audience. It is how well the presenter convinces the audience that he or she is qualified to present (speak) on the particular subject.

2.5.2 Pathos

Pathos is an appeal to the audience's emotions. The persuasive technique of pathos relates to the emotional, or sympathetic appeal. Speakers and writers use pathos to garner sympathy from an audience. In addition, successful writers engenders the target emotions from the audience. Pathos can be particularly powerful if used well, but most speeches do not solely rely on pathos. Pathos is most effective when the author or speaker demonstrates agreement with

an underlying value of the reader or listener. In addition, the speaker may use pathos to appeal to fear, in order to sway the audience. Pathos may also include appeals to audience imagination and hopes; done when the speaker paints a scenario of positive future results of following the course of action proposed.

2.5.3 Logos

Logos is message argument. The persuasive technique of logos relates to logic and reasoning. This appeal means citing facts and statistics, citing authorities on the subject, and making logical analogies. It is normally used to describe facts and figures that support the speaker's topic. Having a logos appeal also see above because information makes the speaker look knowledgeable and prepared to his or her audience. However, the data can be confusing and thus confuse the audience. Logos can also be misleading or inaccurate.

2.6 Tiktok

Tiktok is a social network and music video platform China, launched in September 2016, by Zhang Yiming, founder of Toutiao. The application allows users to make their own short music video. Tiktok is a short video social platform application that supported by music. Be it dance music, freestyle, or performance, video makers are encouraged to be as creative as possible and imagining freely and expressing their expressions as funny as possible. Tiktok is a social media which gives place to the users to be able to express and creativity through video content Abdulhakim, (2019).

Users This TikTok mostly comes from among adolescents and young adults (approximately 16-24 year). Where are they here? great audience for marketing in Tiktok which is very marketing potential for a product Rasyid, (2020). This company called by tedance created

the application TikTok for everyone to empower thoughts creative as a form of content revolution. This application is claimed as a new benchmark in being creative for online content creators around the world.

With this application, the smartphone becomes a studio running, which brings interesting and easy special effects used so that everyone can create a cool video. It's very easy to use the application to make videos what they want or they like.

2.7 Ms Glow

MS Glow is a skin care and cosmetic product that has been obtain a BPOM certificate as well as a HALAL certificate from the Indonesian government, which is the standard for products that are officially circulated by Dana Man for consumers. MS Glow was founded in 2013 which was founded by Shandy Purnamasari and Maharani Kemala, MS Glow is an abbreviation of the brand's motto, namely "Magic For Skin" to reflect a glowing product that is the best in Indonesia, thus creating the brand name MS Glow. In 2017 MS Glow has established the MS Glow Aesthetic Clinic in Malang and a second clinic in the Denpasar area Bali. Now MS Glow has developed into skincare, bodycare and cosmetics.

2.8 Previous Related Studies

In conducting this research, the researcher is influenced by the other researcher who had the same theme with this research.

1. The first relevant of study was done by Maya Aulia Rizka , (2016) entitled “Persuasive Techniques Used In Nike Advertisement”. That has been completed by the students English Language And Letters Department Faculty Of Humanities Maulana Malik Ibrahim State Islamic University Of Malang. This research was conducted by qualitative method. The researcher of this research found that Nike advertisement using all types of persuasive

technique based on Gorys Keraf, (2017) Theory. There are seven techniques that used by the advertiser; Rationalization, identification, cempensation, displacement, suggestion, conformity and projection.

2. The second relevant of study was done by Atikah Sari, (2018) entitled “Persuasive Techniques Used In Advertisements At Instagram”. Based on her research, she found that majority of techniques used in the advertisement at Instagram are realization and suggestion persuasive techniques. With these technique the language that used in the advertisement more attractive the consumers to buy the product. In advertising, a product must use technique of language that can draw the attention from consumers.
3. The third relevant of study was done by Fauzan, (2013) entitled “Persuasive Strategies Used In Captions of Cigarette’s Advertisement”. In his research he used Aristotle, (1954) theory namely Ethos, Pathos and Logos. Based on his research, he found that in the use of persuasive strategies, the captions of cigarette’s advertisement use some ways to persuade the viewers. Captions of cigarette’s advertisement showed the good and credibility of their product by using good character that had comprehensive knowledge in their captions. After that, they appllied Pathos strategy to take the audience’s emotion. They used command word and drove audiences a part of them. In addition, captions of cigarette’s advertisemnet induced the audiences through Logos strategy, they give evidence and logical reason to the audiences by showing new technology such as innovate double filter and Tritek Technology.

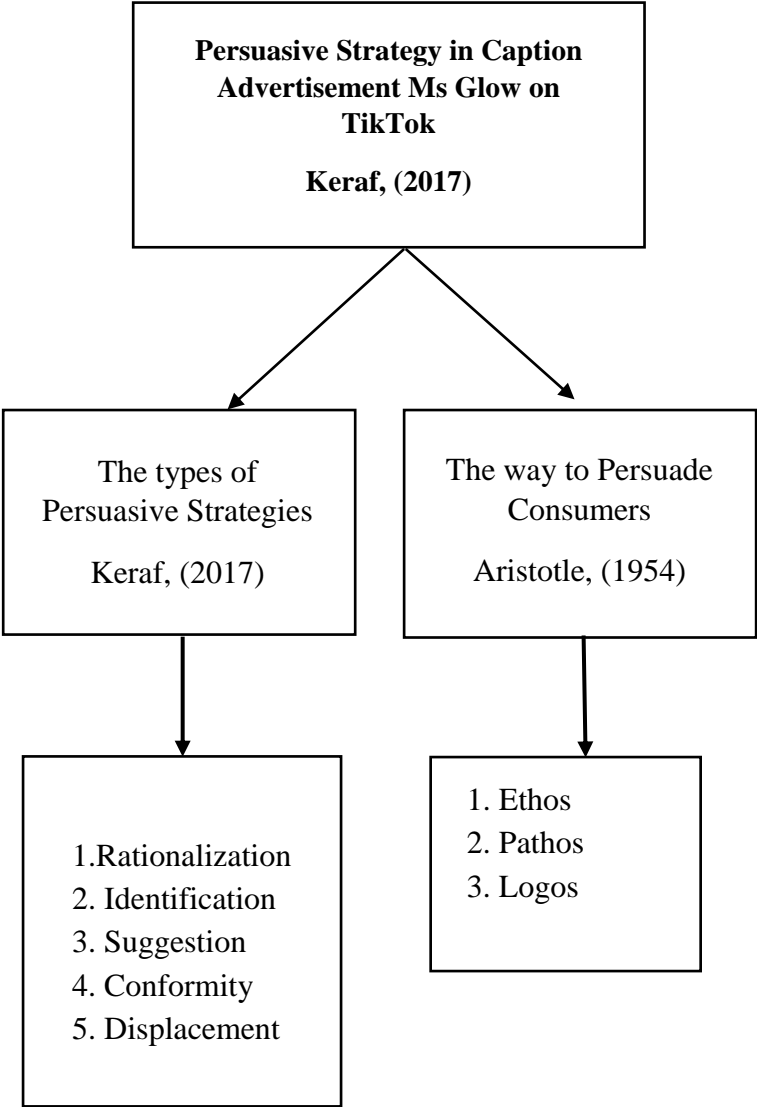

The previous relevant studies can really help the researcher to understand about persuasive technique used in advertisement. The difference between the previous relevant studies from this research is on the detail of investigation and the subject of the research. On the previous relevant

studies only explain about the types of persuasive strategies used in advertisement. But in this research, the researcher would investigate about the types of persuasive strategies and the way to persuade consumers that used in caption Ms Glow on TikTok.

2.9 Conceptual Framework

The conceptual framework in qualitative research is an overview of how variables with their specific position would review and understand related to other variables. The goal is describe how the conceptual framework that researchers use to review and understand the problem examined.

The persuasive strategy in advertising is an important part of the marketing process to persuade the consumer. The caption in the advertisement represent the superiority and benefits of the product. In the advertisement, the advertiser also added pictures of the product which can make the advertisement more convincing and interesting. For example, in the caption from of this sentence “Dengan Moisturizer ini, 100% mengatasi kulit keringmu & Kelembabanmu tetap terjaga”, the advertiser showed the superiority of the product by giving logical statements with proving some evidence.

b. Pathos

Pathos in this research can be found in data 3, 4, 10, 11 and 15. Based on Aristotle’s (1954) theory about the way to persuade consumers, the advertiser tried to persuade or influence the consumer’s emotions. From the caption Ms Glow cosmetic products, some utterances or words are used to influence 45 consumer’s emotion. In data 3 and 4, the advertisers used the word “favorit” and “suka” that can make the consumers feel like because they can believe and trust using this product.

c. Logos

Logos in this research were found in the data 6, 7, 8, and 14. The way to persuade consumers is by giving logical information and some evidence to support the information as the

way to attract the consumers. For example, in the caption “Yuk beauties, skincarean dulu sebelum tidur biar makin glowing”, the advertiser stated about the product and gave some evidence contained in the product listed in the picture of the advertisement. By providing evidence of the product, it can make consumers more attracted to buy and use the product.

4.3 Research Findings

After analyzing all the data in the caption advertisement, the research findings can be reported as follows:

1. From this research, the researcher found there are five types of persuasive strategies using on advertisement woman cosmetics on products of Ms Glow on TikTok. They are: rationalization (7 data), identification (1 data), suggestion (6 data), conformity (9 data) and compensation (1 data).
2. From the caption advertisement on products of Ms Glow on TikTok the researcher found the way to persuade consumers, those are: ethos (6 data), pathos (5 data) and logos (4 data).
3. Mostly, in the advertisement woman cosmetics on products of Ms Glow on TikTok the types of persuasive strategy used in the caption are conformity strategy and rationalization strategy and each advertisement used more than one persuasive strategy in the caption. And also in the advertisement woman cosmetics on products of Ms Glow on TikTok the way to persuade consumers used in the caption advertisement is ethos.

4.4 Dsscussion

This study was done to determine the persuasive strategies of slogan product Ms Glow on TikTok by using keraf (2017) & Aristotle (1954) theory. Persuasive is an action intended to

influence or encourage the mind, manner or opinion of another based on some reasonable arguments. According to (Keraf, 2017) there are seven types of persuasive strategies: rationalization, identification, suggestion, conformity, projection, and displacement. However, the researcher limited 5 types to be studied, namely rationalization, identification, suggestion, conformity, and compensation. The following is an explanation of each type of persuasive strategies:

a. Rationalization

The rationalization strategy used persuasive word such as impossible words but still make sense or have logical reasons. In making a caption advertisement, the advertiser should know well about what the consumer's needs, hopes, wants, and how their attitude and belief are. By knowing those things, the advertisers can justify the quality of the product. The types of rationalization strategy can be found in the data 1, 2, 5, 6, 7, 9, and 12. The statements about the product draw the good quality of each product using convincing words. For example from data 1, '*Dengan Moisturizer Ini, 100% Mengatasi Kulit Keringmu & Kelembabanmu Tetap Terjaga*' in the slogan, the sentence is a rationalization strategy. This is found the sentence "Dengan Moisturizer Ini, 100% Mengatasi Kulit Keringmu & Kelembabanmu Tetap Terjaga" Where in this sentence the advertiser tried show consumers the benefits of the product with some logical statement. This caption convinces the consumers through the formulation of the product. In the sentence "100% Mengatasi Kulit Kering" it is clear that the advertiser use words to show the truth of the benefits of a product to attract consumers so that potential consumers choose the product.

Comparing the research conducted by Atikah Sari, (2018) with the title of her research *“Persuasive Techniques Used In Advertisements At Instagram”* It is showed that her finding similar with researcher finding. In her research, she found a slogan *‘Magic For Skin‘* is a logical statement that technique strategies persuasive the same used to attract consumer. Thus, the slogan attractive the consumers also the same as the slogan found by the researcher, namely *‘100% mengatasi kulit kering’*, it will make consumers interested in using the product.

a. Identification

The Identification strategy is the process of identifying consumers in advertisements. Identification is also required for the advertisers and it can be the key to making their advertisement successful in the market because from identification techniques advertisers would know about consumers, for example young or old of the consumers, male or female, educated or uneducated and etc. From identification, the advertiser also has to analyze the consumer’s needs and based on the situation accurately. The types of identification strategy can be found in data 10. For example, *‘Nails Polish harus stay halal ya, Beauties ‘* the types of persuasive strategies used in this advertisement caption in identification strategy. This caption show that the product of nail polish is halal and can be used especially for Muslims, so the people can use this product easily. That way it would certainly be easier to influence consumers.

Comparing to research conducted by Maya Aulia Rizka, (2016) entitled *“Persuasive Techniques Used In Nike Advertisement“* it is showed that the finding also similar with other finding for this type. In her research, she found a slogan *“Start With Halal“*. The identification strategy was utilized in the “Start With Halal” slogan

advertisement. Meanwhile, using a persuasive strategy, namely identifying products, can protect consumers from products that may not be used by Muslims.

b. Suggestion

The suggestion is a key in persuading consumers. Advertisers must choose good words to make them acceptable to consumers. An attempt to persuade consumers to accept a particular belief or establishment without providing a logical basis of belief in consumers who want to be influenced. The types of suggestion strategy can be found in the data 1, 4, 5, 6, 13, & 14. Example from, data 5 “ *Kulit wajah iritasi? Kemerahan akibat terbakar sinar matahari? Tenangkan kulitmu dengan Ms Glow Juice Moisturizer varian Watermelon* “. The caption was created based on the current situation where everyone must wear this Ms Glow Juice Moisturizer when your skin is irritated and red from the sun which in this part the advertisers want to provide a product with good quality that can protect skin from UV light. This caption would certainly attract the consumer’s interest because it is still difficult to find products that have formulas to overcome skin problems caused by this product. This caption used a suggestion strategy.

Comparing to research conducted by Atikah Sari, (2018) entitled “ Persuasive Techniques Used In Advertisements At Instagram”. In her research, she found a slogan “ *Beauty Solustion*”. This slogan can inspire and give recommendation to consumer for being confidence when using the product, which will speed up the process of getting ready and also brighten up instaly. The use of product-appropriate phrases will make it easier for consumers to be interested in the product. Meanwhile, in the slogan that the reseachers got, namely “ *Kulit wajah iritasi? Kemerahan akibat terbakar sinar Matahari? Tenangkan kulitmu dengan Ms Glow Juice Moisturizer varian*

Watermelon”, in the slogan, advertisers give the suggestion to consumers to use products from TikTok where people can be interested in the product.

c. Conformity

Conformity strategy is to conform to something that has been intended or make something similar to the thing at the time. This strategy has similarities with the identification strategy, conformity is a way of thinking to adapt the advertiser to the consumer's condition. The advertiser presents only a few things in the same way as the reader, whereas in conformity strategy the advertiser shows that they are capable of acting as the reader themselves. Conformity strategy aims to provide an idea of how a product has real capabilities as expected by potential consumers. The types of conformity strategy can be found in the data 1, 3, 5, 7, 9, 11, 12 & 15. Example from, data 9 “*Untung ada JJ Glow ya beauties, jadi gak takut paparan sinar Matahari lagi deh*”, the types of persuasive strategy used in this caption is conformity strategies. In this caption, the advertisers show lucky to have this product so that protect our skin from UV. This product have a benefit when the consumers do the activities outdoor so it make consumers be protect for their skin.

Comparing to research conducted by Maya Aulia, (2018) entitled “*Persuasive Techniques Used In Nike Advertisement*”. Based on her research, she found a slogan “*Inspiring Beauty*”, is a logical statement that product will be inspire Indonesian women with their beauty. Thus, consumers will be attracted to the product marketed under the slogan Inspiring Beauty and this is also the same as the slogan found by the researcher, namely ‘*Persuasive Technique Used In Nike Advertisement*’ it will make consumers interested in using the product.

d. Compensation

In this strategy, the advertisers used the different situation with the situation before to influence the consumers. The consumers would get or find a better situation after using this product. Compensation strategy aims to offer a product better than another product through the advantages of the products. The types of compensation strategy can be found in the data 2. From example, *“Miss Rusia & Uganda aja gamau, masa kamu masih bertahan sama yang ngasih merkuri”*, In this caption, the advertiser used a compensation strategy based on Keraf’s, (2004) theory, the advertisers used the different situation with the situation before to influence the consumers. This advertiser user the slogan *“Masih tergoda dengan merkuri?”*, wich refer to the product Ms Glow better and safety than the other product. Thus, what consumers more interested because in this product there is no mercury.

Comparing to research to conducted by Maya Aulia Rizka, (2016) entitled *“Persuasive Techniques Used In Nike Advertisement”*. The researcher of this research found the types of persuasive strategies, that is compensation. Meanwhile, in the slogan that researchers got, namely *“Masih tergoda dengan merkuri?”* adevertiser give technique the language that used in the advertisement more attractive the consumers to buy the product.

Meanwhile, the ways to persuade consumers which are the second part of research problem, the advertiser used persuasive strategies in each data based on theory of Aristotle, those are: ethos, pathos, and logos.

a. Ethos

In this research, ethos found in data 1, 2, 5, 9, 12, and 13. The way that the advertiser used to persuade consumers is shown by the quality and credibility of the product. The caption in the advertisement represent the superiority and benefits of the product which can make the advertisement more convincing and interesting. For example, in the caption from this sentence *“Dengan Moisturizer ini, 100% mengatasi kulit keringmu & kelembabanmu tetap terjaga”*, the advertiser showed the superiority of the product by giving logical statements with proving some evidence. Therefore, consumers can have faith and interest in the product.

Comparing to research conducted by Fauzan, (2013) entitled *“Persuasive Strategies Used In Captions of Cigarette’s Advertisement”*, found that, on slogan *“Men Have Taste”* advertisement, for instance, the advertiser demonstrates the benefit and quality of the product by providing a logical explanation, and the image of the product demonstrates the product’s quality. Thus, consumers can develop confidence and interest in a product. This is the same as research at Ms Glow on TikTok, for example in the slogan *“Dengan Moisturizer ini, 100% mengatasi kulit keringmu % kelembabanmu tetap terjaga”* the slogan attract the attention of readers to use the product.

b. Pathos

Pathos in this research can be found in data 3, 4, 10, 11 and 15. Based on Aristotle’s (1954) theory about the way to persuade consumers, the advertiser tried to persuade or influence the consumer’s emotions. From the caption Ms Glow cosmetic products, some utterances or words are used to influence consumer’s emotion.

Comparing to research conducted by Fauzan, (2013) entitled *“Persuasive Strategies Used In Captions of Cigarette’s Advertisement”*, found that, on slogan *“Men Have*

Taste” for example, in data 3 and 4, the researcher found a advertisers used the word *“favorit”* and *“suka”* that can make the consumers feel like because they can believe and trust using this product. Same as the researcher found on Ms Glow, the advertisement used the slogan to attract consumer attention .

c. Logos

Logos in this research were found in the data 6, 7, 8, and 14. The way to persuade consumers is by giving logical information and some evidence to support the information as the way to attract the consumers. For example, in the caption *“Yuk beauties, skincarean dulu sebelum tidur biar makin glowing”*, the advertiser stated about the product and gave some evidence contained in the product listed in the picture of the advertisement. By providing evidence of the product, it can make consumers more attracted to buy and use the product.

Comparing to research conducted by Fauzan, (2013) entitled *“Persuasive Strategies Used In Captions of Cigarette’s Advertisement”*, found that, the slogan *“feel good do good”* the advertiser asserted about the product and provided evidence of the product’s benefit enumerated in the advertisement. Same as the researcher found on Ms Glow, from the slogan consumers can feel good about themselves, because the slogan makes them curious about what it means.

From the explanation of similar research above, the research examines persuasive strategies which are a form of communication that strengthens the influence of argumentation in order to produce a commitment to follow the purpose of persuasion. Advertisers try to appeal to consumer’s intellect or their fantasies and feeling in an effort to create a desirable image for their brand, so that consumers buy it one day. From this

explanation, previous research has also examined this, but the object of research is the difference between the research described above. By Atikah Sari, (2018) studied persuasive strategies in advertisement on Instagram, while the researcher's research examined persuasive strategies in Ms Glow advertising slogans on TikTok.

The difference in research results showed that in previous studies, in the advertisement of women's cosmetics on products of Ms Glow on TikTok the types of persuasive strategy used in the caption are conformity strategy and rationalization strategy and each advertisement used more than one persuasive strategy in the caption. And also in the advertisement of women's cosmetics on product of Ms Glow on TikTok the way to persuade consumers used in the caption advertisement is ethos.

CHAPTER V

CONCLUSION AND SUGGESTION

5.1 Conclusion

Based on the data from the data in table 1 and table 2, it has obtained some conclusions as follows:

1. There are 5 types of persuasive strategies that are used five types of persuasive strategies using on advertisement woman cosmetics on products of Ms Glow on TikTok. They are: rationalization (7 data), identification (1 data), suggestion (6 data), conformity (9 data) and compensation (1 data). And mostly used in caption is rationalization and conformity.
2. The way that the advertiser used to persuade consumers in the data used three ways, those are: ethos (6 data), pathos (5 data) and logos (4 data). In this research, mostly ethos as the way to persuade consumers.
3. Persuasive strategies used in caption of on advertisement woman cosmetics on products of Ms Glow on TikTok because the persuasive strategies have a meaning to influence the mind, manner or opinion of someone with some reason and evidence. By using persuasive strategies, the caption in the advertisement would look more attractive and so that it would make consumers more confident to buy the products offered by the advertisers. These are some types and ways strategies that can be used to influence the consumers according to the needs and circumstance of the consumers.

5.2 Suggestion

1. There are still many fields that can be analyzed for persuasive strategy. The researcher hopes for the next researcher who is interested in conducting the investigation on other persuasive strategy objects and how they can be applied. And also for the next researcher can find another aspect to be analyzed, not only about the types of persuasive strategies and the way to persuade consumers.
2. For the readers or students, this research can be used as a references in make a research about analyzed the types of persuasive strategies and the way to persuade consumers, and also to get a better understanding and knowledge related to persuasive strategies used in advertisement.
3. For the advertisers, the researcher hopes that in the next advertisement they can be more creative in making caption advertisement because there are so many strategies that can be used to persuade consumers, the advertisers must make a caption with logical statements in order to attract interest from consumers to buy their product.
