ABSTRACT

Winda Putri Lestari. 1502050154. The Effect of Magnet Summary Strategy Assisted by Video Media on Students' Achievement in Writing. Skripsi. English Education Department. Faculty of Teacher Training and Education. University of Muhammadiyah Sumatera Utara, Medan 2019.

The objective of this study was to investigate the effect of Magnet Summary Strategy assisted by video media on students' achievement in writing. This research was conducted at SMA Al-Hikmah Medan Marelan of 2019/2020 academic year. The sample of this study there were 80 students taken from class XI MIA-1 totaling 40 students as a control group, XI MIA-2 totaling 40 students as an experimental group, and was taken by using purposive sampling technique. The research data were obtained by giving pre-test and post-test in both groups. Those data were analyzed quantitatively as staged by Sugiyono (2015). The analysis indicated that $t_{test} > t_{table}$, or $17,4367 > 2,024$. It means that, alternative hypothesis (H_a) was accepted. In conclusion, there was the effect of magnet summary strategy on students' achievement in writing.

Keywords: *Magnet summary strategy, writing, students' achievement*

ACKNOWLEDGEMENTS

Alhamdulillahirabbil'alamin. First of all, the researcher would like to say Alhamdulillah for Allah SWT the Most Almighty, who has given healthy and chance for researcher in resolving this study form the beginning up to the end. Blessing and peach be upon prophet Muhammad SAW who has brought humanbeing from the darkness into the light era as we behold today.

This researcher intended to fulfill one of requirements in accomplishing Bachelor degree at English Education Department of Faculty of Teacher Training and education University of Muhammadiyah Sumatera Utara. Furthermore in finishing the research entitled *The Effect of Magnet Summary Strategy Assisted by Video Media on Students' Achievement in Writing* experienced many obstacles. Thus, in the completion of this thesis, starting from the beginning until the end, the researcher would like to thank firstly to the special people for the valuable assistance and guidance. For this reason, the researcher expressed her deepest gratitude to her most beloved father in the world Alm. Drs. Kaswar Caniago, and the most beloved mom, Rosmaniar Tanjung, and also brother and sisters, Andi, Kak Rika, Kak Ria, Adek who inspired and encouraged when she was sick to do struggle with the limitations got. On this occasion the researcher also expressed her respects and thanks to:

1. Dr. Agussani, M.AP., the Rector of University of Muhammadiyah Sumatera Utara, Medan.

2. Dr. H. Elfrianto Nasution, S.Pd, M.Pd., as the Dean of Faculty of Teacher Training and Education.
3. Dra. Hj. Syamsuyurnita, M.Pd, as the Vice Dean I of FKIP UMSU.
4. Mandra Saragih, S.Pd, M.Hum, and Pirman Ginting, S.Pd, M.Hum, as the head and secretary of English Education Department of FKIP UMSU.
5. Yenni Hasnah, S.Pd, M.Hum, the supervisor who had given suggestion, ideas, criticism, and guidance in writing the study.
6. All lecturers who had given their valuable thought in teaching English during the academic years at UMSU.
7. Nuriadi, S.Pd.I, and Ummi Nadrah Siregar, S.Pd, M.Hum, as the headmaster and English teacher, other teachers and students who have given a good cooperation during the experiment.
8. Friends in arms, Intelligent People (C-Pagi Class).
9. Kaidah Bayya Group, Bang Raja, Kak Nisa, Kak Iky, always give me material and power support.
10. BSB Group, Novita, Vivi, Indah, Rany, Sina, Lilis, always make me laugh.

Finally, the researcher realized that this research was still far from being perfect. Thus, she expected various constructive suggestion and critics to make this study better. Hopefully, it is useful for the researcher herself and readers. May all be under the guidance of Allah SWT.

Medan, September 2019

The Researcher,

Winda Putri Lestari

CHAPTER I

INTRODUCTION

A. The Background of the Study

Writing is an activity that is express, thinking, experiences, and knowledge into the form of records using scripts, symbols or symbols that are made systematically can be easily understood by others. Based on Leo (2007) writing as a process of expressing ideas or thoughts in word should be done at our leisure. Writing can be very enjoyable as long as we have the ideas and the means to achieve it.

Percy (2002) classified that writing have six benefits is first, a tool for self-expression; second, a tool for understanding; third, a tool to help developing personal satisfaction, pride, and a feeling of self-worth; fourth, a tool for increasing awareness ang perception of one's environment; fifth, a tool for active involvement, not passive acceptance; sixth, a tool for developing and understanding of and ability to use the language.

In Curriculum 2013, it is expected that students should be able to understand, respond, express, and arrange meaning in a monologue text or essay using a variety of written languages accurately, expeditiously, and acceptably in form of text, especially on analytical exposition.

In fact, the students are still bad in writing. This case is proven through the observation at SMA Al-Hikmah Medan Marelan as the researcher internship location. This reality is indicated from some students' problem in writing. Some

of these things like the students writing are not still concise and neat, and tend to write a summary in length. In addition, the choice of words used in writing summaries are still exactly the same as the writing you want summarized. There are factors perceived by students, is internal and external factors. In internal factors, obstacles that arise from within the students selves, for example students do not have enough vocabulary, or are confused because there are no ideas to be expressed. And in external factors, obstacles that arise from outside the students, from the teacher. The teachers does not provide interesting media and strategies in writing activities, so there are no definite stages to help students in writing.

The problems above can be minimized by applying a more interesting teaching strategy. Magnet summary strategy is one strategy that can be used by the teacher in teaching writing achievement. Buehl (2001) states that Magnet Summary helps students expand on key terms or concepts from a reading. These “magnet” words help students organize information that becomes the basis for student created summaries. Through this strategy, students can determine relevant and irrelevant details when they synchronize information, think, understand, and develop ideas. It was more efficient when this strategy was juxtaposed with video media. Using video can help the teacher to transfer the material to the students in detailed informations about the object content. It can give imagination about the content of the video that is related to the material. So, the students was focused to watch video and they could see the act and hear language from video, so they write down in a paper or book.

From the explanations above, the researcher is interested in doing a research entitled: The Effect of Magnet Summary Strategy Assisted by Video Media on Students' Achievement in Writing.

B. The Identification of Problem

The problems of the study were identified clearly as the followings:

1. The students had difficulties in concepting the ideas.
2. The students' writing were not still concise and neat.
3. The students tended to write a summary in length.
4. The teachers did not provide interesting media and strategy in writing activities.

C. The Scope and Limitation

The scope of this research was focused on writing skill, and it was limited on the students' ability in writing analytical exposition by using Magnet Summary Strategy assisted by video media.

D. The Formulation of the Problems

Based on the problems which had been identified above, the research problem was formulated as follow: "Is there any significant effect of using Magnet Summary Strategy on students' achievement in writing?"

E. The Objective of the Study

The objective of this study was to investigate the effect of Magnet Summary Strategy on students' achievement in writing.

F. The Significance of the Study

The results of this study were expected to be useful theoretically and practically. Theoretically, those were the valuable references in improving the readers' knowledge, especially about writing. Then, practically, those significantly give contribution to teacher, student, school, and other researchers as elaborated below:

- a. For teacher; those gave inspiration for teachers to apply Magnet Summary in their teaching.
- b. For student; those improved their interest and motivation in writing.
- c. For school; those contributed on varying the teaching strategy to be applied by the teachers.
- d. Other researcher; those motivated the other researchers to do the further research.

CHAPTER II

REVIEW OF LITERATURE

A. Theoretical Framework

1. Writing

Sarwono (2013) stated that writing is one of the most important skills in learning a language besides listening, reading, and speaking. Writing is one of the language skills when inform the writer's ideas in the written form. It meant that writing is a process who people write to often heavily influenced by the constraints of genres, and then these elements have to be present in learning activities.

Pardiyono (2007) stated that writing is a combination of process and product. The process refers to the act of gathering ideas and working with them until they are presented in a manner that is polished and comprehensible to readers. The writing as the production of written word that result in a text, but the text must be read and comprehend. By using writing, people can share their ideas, feeling or anything that exist in their mind. It is also a creative process and good writer must learn to communicate their ideas clearly.

Based on the theories above, the researcher took the conclusion that writing is a way to produce language that comes from the thought.

2. The Process of Writing

Whatever readers writing habits, they are simply the enabling conditions that allow readers to begin and persue readers' writing process. Crimmon (2012)

explained that the writing process be divided into three stages: a) planning, b) drafting, and c) revising.

a. Planning

Planning is any orderly procedure used to bring about a desired result. As the first stage in the writing process, planning is a series of strategies designed to find and produce information in writing. When readers begin any writing project, readers need to discover what is possible. Readers need to locate and explore a variety of subjects. Readers need to invent alternative ways to think and write about each subject. And readers need to consider all ideas, however mundane or unsettling, in order to select and create the substance out of which readers shape subject.

b. Drafting

Drafting is a procedure for drawing up a preliminary sketch. As the second stage in the writing process, drafting is a series of strategies designed to organize and develop a sustained piece of writing. Once planning has enabled readers to identify several subjects and encouraged readers to gather information on those subjects from different perspectives, readers need to determine what readers can best accomplish in writing. Readers need to select one subject and organize your information about it into meaningful clusters. Then readers need to find connection among those clusters and discover the relationship that links the connections.

c. Revising

Revising is a procedure for improving for correcting or correcting a work in progress. As the third and final stage in the writing process, revising is a series of strategies designed to re-examine and re-evaluate the choices that have created a piece of writing. After readers have completed readers' preliminary draft, readers need to stand back from readers text and decide what actions would seem to be most productive. Readers may have to embark upon global revisiona complete recreation of the world of readers' writing. Or readers may be able to begin local revisiona concerted effort to perfect the smaller elements in a piece of writing readers have already created.

3. Genres of Writing

Pardiyono (2007) stated that genre is a term for grouping texts together, representing how writers typically use language to respond to recurring situation. For many people, it is intuitively attractive concept that helps to organize the common-sense labels we use to categorize texts and the situations in which they occur.

Based on the explanation above, researcher knew that genre is type or kind of text, defined in terms of its social purpose also the level of context dealing with social purpose. By using genre, researcher can construct appropriate text that can be understood clearly by others.

According to Gerrot and Wignell (1995), the texts are classified into several genres, they are:

1. Spoof is genre which has social function to retell an eventwith a humorous

twist.

2. Recount is genre which has social function to retell event for the purpose of informing or entertaining.
3. Report is a genre which has social function to describe the way things are, with reference to a range of natural, man-made and social phenomenon in our environment.
4. Analytical exposition is a genre which has social function to persuade the reader or listener that something is the case.
5. News item is a genre which has social function to inform the readers, listeners, or viewer about events of the day which are considered newsworthy or important.
6. Anecdote is a genre which has social function to share with others an account of an unusual or amusing incident.
7. Narrative is a genre which has social function to amuse, entertain and to deal with actual or vicarious experience in different ways: narrative deal with problematic events which lead to a crisis or turning point of some kind, which in turn find a resolution.
8. Procedure is a genre which has social function to describe how something is accomplished through a sequence of actions or steps.
9. Description is a genre which has social function to describe a particular person, place or thing.
10. Hortatory exposition is a genre which has social function to persuade the reader or listener that something should or should not be the case.

11. Explanation is a genre which has social function to explain the processes involved in the formation or workings of natural or social cultural phenomenon.
12. Discussion is a genre which has social function to present (at least) two points of view about an issue.
13. Review is a genre which has social function to critique an art work or event for a public audience. Such works of art include movies, TV shows, books, plays, operas, recordings, exhibition, concerts and ballet.

4. Writing Assesment Criteria

To know students ability in writing there was some scoring the test. Hughes (2003) classified that there is five scoring components scales namely: a) content, b) organization, c) vocabulary, d) language use, and e) mechanism. The specific criteria are described in detail by the following stages:

a. Content

The sentences of the content depended on the students' capability to write their ideas information in the form of logical sentences.

Table 3.1
Content

30-27	Excellent to very good. For the students with some knowledge and subject adequate or range limited development. Mostly relevant to topic sentences but lack the details.
22-26	Good to average. For the students with some knowledge of the subject, edequate ranges limited out, but lack details.

21-27	Fair to average. For the students with their knowledge of the subject, little substance in adequate development of subject.
16-12	Very poor. When the students do not know knowledge of the subject non substantive, not pertinent to evaluate.

b. Organization

The Organization refers to the students' ability to write ideas of information in good logical, topic supporting sentences be clearly state. The criteria as follows:

**Table 3.2
Organization**

20-18	Excellent to very good. Where the students is ready to provide fluent expression, ideas clearly stated. Sentences are organized logical sequence cohesive.
17-14	Good to average. Somewhat rough – loosely organized but the main ideas stand out.
13-10	Fair to poor. Non fluent ideas confuse or disconnect, lack the logical acquently not development.
9-6	Very poor. Does not communicative an organization or not enough or evaluate.

c. Vocabulary

The good writers have to enrich their vocabularies for their writing's quality. But it is not enough without chosen the correct vocabulary to the text. Jacobs states vocabulary into four descriptors: sophisticated range, effective word/ idiom choice and usage, word form mastery, and appropriate register. The criteria as follows:

Table 3.3
Vocabulary

20 – 18	Excellent to very good Sophistical range-effectives word forms, etc.
17-14	Good to average Adequate range – accossional errors of word form, choice, usage that meaning not obscured.
13-10	Fair to poor Limited range – frequent errors of word form, choice, usage meaning confused of obscured.
9-6	Very poor Lack of essential translation, title knowledge of English vocabulary word form or not enough to evaluation.

d. Language use

Language use reffered to someone capability in writing, simple complex or composed sentences correctly and logically. It also refer to the ability in using agreement in sentences and some other words such as a nouns, adjective, verbs and the time signal.

Table 3.4
Language Use

25-22	Excellent to very good Effective complex construction, few errors of agreement, tense, number, word, function, articles, pronouns, preposition.
21-18	Good to average Effective but simple construction – minor problems in complex construction – several errors of agreement, tense, number, word function, articles, pronouns, preposition, but meaning seldom obscured.
17-11	Fair to poor Major problem in simple/complex constructions – frequent error negative, agreement, tense, number, word function, articles, pronoun, preposition, and fragments non – on, delections –meaning confused or obscured.
10-4	Very poor Virtually no mastery of sentence construction rules – dominated

e. Mechanism

Mechanism refers to the students' ability in using word appropriately, using function correctly. Paragraph and the text can be read correctly.

Table 3.5
Mechanism

5	Excellently very good Demonstrate mastery of conventions – few errors or spelling, punctuation, capitalization, paragraphing.
4	Good to average Occasional errors of spelling, punctuation, capitalization, paragraphing but meaning confuse or obscure.
3	Good to poor Frequent errors of spelling, punctuation, capitalization paragraphing, - poor handwriting – meaning confuse or obscure.
2	Very poor No mastery of conventions – dominated by errors of spelling, punctuation, capitalization, paragraphing – handwriting illegible or not enough to evaluate.

Based on these indicators, then the students' writing ability are classified in quantitative and qualitative system. Scales are as follows:

Table 3.6
Qualitative and Quantitative form

Skill	Skill
Qualitative form	Quantitative form
Excellent to very good	90-100
Good to average	70-80
Fair to poor	30-60
Very poor	0-29

5. Magnet Summary Strategy

Magnet Summary is a strategy which teaches the students about how to make a good summary by finding the important key terms from the text and then

composing those words into sentences or paragraph by using their own words. Buehl (2014) states that magnet summary assists students to figure out the details from the text and make a summary based on the details by using their own words. This strategy requires students to identify the key term or concept magnet words from the text and then arrange the important information into a meaningful summary. It helps students to understand how to relate and connect the main idea and the important details found in the text and also how to compose the words into sentences and combine the sentences into paragraph.

Urquhart, Vicki and Monette McIver (2005) states that, magnet summaries is a reading and writing strategy that helps students condense their reading about specific topics to several key words or phrases and then combine the words or phrases into a sentence or two that incorporates all of the relevant information.

6. The Advantages of Magnet Summary Strategy

Moss & Lapp (2010) explain some advantages of using the magnet summary strategy. First, it includes a graphic organizer that helps students how the ideas in a text are connected and related. Second, teaching summarization by using this strategy is more effective than using a less-structured approach. Third, it leads students to have an effective summary by deciding the important ideas and presenting it in a brief manner. Fourth, it can be used across the curriculum so students can apply it to any content area and it can also be applied for different types and levels of learner.

7. Steps of Magnet Summary

Buehl (2013) classified the ways to apply magnet summaries strategy below:

1. To summarize, a reader must identify the most important ideas and omit details of lesser significance. An effective summary also includes paraphrasing-reinterpreting what was read in the reader's own.
2. Introduce the idea of magnet words to student by explaining how magnets affect the metal objects. As magnet attracts the metal object, magnet words attract the information.
3. Ask students to read the short passage and to find the key term of concept to which the details in the passage seem to connect. Write the magnet word on the white board and ask students to recall important words or phrases that are related to the magnet words.
4. As you write these details around magnet words, the students also follow the same procedures on an index card.
5. Ask students to reread the passage and figure out three or four additional magnet words. Students work with the partners to identify what are the remaining magnet words should be as they determine the main ideas of each text segment. For the younger students, the text should have more modest length that they should identify a magnet word for each paragraph or section following the heading.

6. Model the students how to organize and combine the information on one card into a sentence. Next, they work to write sentences that summarize each of their remaining cards.
7. Guide students to arrange the sentences in the order they wish the summary to read.

8. The Example of Applying Magnet Summary Strategy

To get clarity, the researcher included the example of applying magnet summary strategy below :

Paragraph :

Home schooling is an education system which provides child's main education program at home. Home schooling takes the place of full-time school attendance and, in the United States and Canada, it usually meets state requirements for compulsory education. Although home schooling could achieve the objectives of compulsory education, there are some points that should be noticed from the home schooling.

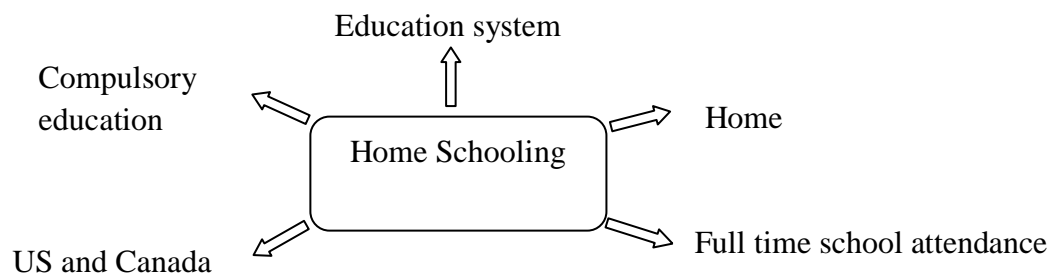

Chart 2.1 Home Schooling Components

Note : The word in the circle is the magnet word while the words outside the circle are the important details

Summary:

Home schooling is a home education system and takes the place of full time school attendance and, in the US and Canada, it can be the compulsory education.

9. Video

Video is a technology for capturing, recording, processing, transmitting and rearranging moving images. Usually using celluloid film, electronic signals, or digital media. Video can also be say to be a combination of dead images that are read sequentially at a time with a certain speed. The combined images are called frames and the speed at which images are read is called frame rate, with one fps.

According to the KBBI, the video is recording live images or television programs to be aired on television, or in other words the video is a moving image accompanied by sound. Video actually comes from Latin, video-vidi visum which means to see.

Azhar Arsyad (2011) states that video is an image – a picture in a frame, where frame by frame is projected through a lens the projector is mechanically so that on the screen there is a live picture. From the definition above can be concluded, that video is one type audio-visual media that can describe a moving object together with natural sound or appropriate sounds. Ability videos depicting vivid image and sounds provide a special attraction. Based on the understanding according to some experts above, it can be concluded that video is one type of

audio-visual media and can describes an object that moves together with sound natural or appropriate sound. Video presents information, explain process, explain complex concepts, teach skills, abbreviate or extend time, and influence attitude.

According Harmer (2005) classified that there are three basic types of video can readily be used in class, they are:

a. Off- air program video

Off –air program video is all channels in television that is recorded become video. This video is difficult video to understand by students because they are very length and difficult to comprehend.

b. Real-world video

Real-world video is not really different from off-air programs. Features films, manual exercise, wildlife documentary or comedy are example of real-world videos.

c. Language learning video

Language learning video is the video that is accompanied by course books. This video is comprehensible, best used for every subject in the class, and it is designed with interesting topic. Yet, this video has weakness: they have unauthentic situation and language, the content is not suitable with culture and real world situations.

10. The Steps of Applying Magnet Summary Strategy Assisted by Video in Teaching Writing

According to Buehl (2013) the general steps that can follows to apply Magnet Summary Strategy:

1. Instruct students to watch carefully analytical exposition video.
2. The students must identify the important ideas and eliminate details which are less important.
3. Ask the students to find the key word or magnet word on the paper and students to recall important words that are related to the magnet words.
4. Ask the students to figure out three or four additional magnet words.
5. Then, the students organize and combine the magnet word and additional magnet words.
6. Guide the students to arrange the sentences in the order they wish the summary to read.

B. Relevant Studies

Some of the relevant studies with the research were elaborated as the following. First, Hardiansyah (2013) made a research about “The Effect of Using Magnet Summary Strategy toward Reading Comprehension of The Fifth Grade Students at Almunawwarah Islamic Boarding School”. He focused on investigating the problems that there was some of students have difficulty to comprehend the text given. He found that the student who had taught by using magnet summaries strategy have good level in reading comprehension than the students who have no thought by using Magnet Summary Strategy and the Magnet Summary Strategy gave significant effect to word students reading comprehension.

Second, Siregar (2018) made a research about “The Effect of Magnet Summary Strategy on Students’ Reading Comprehension Trough Procedure Text at Seventh Grade in SMP Muhammadiyah 48 Medan”. She focused on investigating the problems that the students was have difficulty to comprehend the procedure text given because the teacher just using the lecture method. She found that the student’s achievement in reading procedure text by applying Magnet Summary Strategy was higher than taught by conventional method.

Based on the relevant studies above, it was seen that there were the similarity and the differences with this present study. The similarity was focusing on using the same strategy. While the difference was the two previous studies were scoped on reading skill but this current study dealt with writing skill.

C. Conceptual Framework

Writing is one of the language skills when inform the writer’s ideas in the written form and should be mastered by students. However, some problems of writing in the grade XI students were found. The students writing are not still concise and neat, and tend to write a summary in length. in addition, the choice of words used in writing summaries are still exactly the same as the writing you want summarized.

Magnet Summary Strategy is choosen as a strategy to solve the problems above. The advantages of Magnet Summary Strategy is that by following the procedure, students can determine relevant and irrelevant details when they

synchronize information, thinking, understanding, and developing ideas. The researcher used experiment design that consist of experimental and control class.

CHAPTER III

METHOD OF RESEARCH

A. Location and Time of Research

This research was conducted at SMA Al-Hikmah Jl. Marelan I Pasar IV Barat No. 10 Rengas Pulau, Medan Marelan, Kota Medan, Sumatera Utara . This location was chosen based on the observation which has been done for one week and it shows that the students in the school still had difficulty in summarizing. The research was carried out at 2019/2020 academic year.

B. Population and Sample

1. Population

The population of this study were from the students of eleventh grade of SMA Al-Hikmah Medan of 2018/2019 academic year, which consisted of three classes. There were XI MIA-1, XI MIA-2, and XI IPS-1. Those amount to forty students in XI MIA-1, forty students in XI MIA-2, and thirty five students in XI IPS-1. It meant that the total number of population were 115 students.

2. Sample

The sample of this research was taken by purposive sampling technique. So, class XI MIA 1 and XI MIA-2 were taken as the sample of this research. The total of the sample were 80 students. In detail, the population and sample in this research were presented in the following table.

Tabel 3.1
Population and Sample

No.	Class	Number of Population	Sample
1	XI MIA-1	40	40
2	XI MIA-2	40	40
3	XI IPS-1	35	
Total		115	80

C. Research Design

This research was True Experimental Research. It was a research which is aimed to search whether there was or there was no effect of treatment which was done to the experimental subject without random assignment. In this research, the researcher used two classes namely experimental and control classes. The design of research was illustrated in the following table.

Tabel 3.2
Research Design

Group	Pre-test	Treatment	Post-Test
Experimental	√	Magnet Summary Strategy	√
Control	√	Conventional Method	√

1) Pre-Test

The pre-test was conducted to know each students' ability in the experimental and control groups before doing the treatment. A pre-test which was

administered to the both groups was the same test. The function of the pre – test was to know the mean scores of students before give a treatment.

2) Treatment

Treatment was given to the students after the pre-test administered. Both of groups were taught the same material by using different way. The experimental group was taught by using magnet summary strategy and the control group was taught by conventional method.

3) Post Test

The post-test was conducted to know each students' writing ability after the treatment applied. It was administered to experimental and control groups. The administering of the post-test meant to find the differences scores of both groups.

D. Instrument of Research

To collect research data was the test as the instrument of this research. The test was written test. In this case, the students wrote a summary of analytical text. To make sure the test was good, the researcher examined its validity, reability, and difficulty level.

1. Validity

The validity of each test was calculated by using person's product moment formula as follows:

$$r_{xy} = \frac{N \sum XY - (\sum X)(\sum Y)}{\sqrt{\{N \sum x^2 - (\sum x)^2\} \{N \sum y^2 - (\sum y)^2\}}}$$

Where:

R_{xy} = the correlation of the scores on the two halves of the test,

N = the number of the students in each group,

X = the score of each text,

Y = the sum of all text' score,

XY = the multiplication of the X and Y scores,

ΣX = the sum of total X score in each group,

ΣY = the sum of total score from each students,

ΣXY = the sum of multiple of score from each student with the total score,

ΣX^2 = the sum of the square score in each text, and

ΣY^2 = the sum of all texts' square

2. Reliability

The reliability of each test was calculated by using person's product moment formula as follows:

$$r = \frac{N (\Sigma XY) - (\Sigma X)(\Sigma Y)}{\sqrt{[N(\Sigma x^2) - (\Sigma x)^2][N(\Sigma y^2) - (\Sigma y)^2]}}$$

Where:

r = the reliability of the test

ΣX = sum of the X scores

ΣY = sum of the Y scores

Σx^2 = sum of the squared X scores

ΣY^2 = sum of the squared Y scores

ΣXY = sum of the products of paired X and Y scores

N = number of paired scores

3. Difficulty Level

The difficulty level of a test was indicated by the percentage of the student who gets the item right. The more difficult an item was, the fewer were the students who selected the correct option. To know the difficulty level, the writer used the formula:

$$TK = \frac{B}{JS}$$

Where:

TK = The difficulty of the index

B = The number of the students who answer an item correctly

JS = The total number of the students

E. The Technique of Collecting Data

The data was collected by giving the test to the students. Several steps were used to collect the data :

1. Giving the pre-test.
2. Applying the treatment, which Magnet Summary Strategy is applied to the experimental group, while the control group is taught by using conventional method.
3. Giving post-test to both of the classes.
4. Collecting the students' answer sheets and score the students' answer.

F. Technique of Data Analysis

There were some steps in analysing the data as follows:

1. Correcting the students' answer.
2. Scoring the students' answer.
3. Listing the students' score into tables, first for the experimental group's score and the second for the control group's score.
4. Calculating the total of the score.

- a. Coefficient of correlation :

$$r_{xy} = \frac{n \sum x_i y_i - (\sum x_i)(\sum y_i)}{\sqrt{\{n \sum x_i^2 - (\sum x_i)^2\} \{n \sum y_i^2 - (\sum y_i)^2\}}} \quad (\text{Sugiyono, 2015:255})$$

- b. Test of Significant :

$$t = \frac{r_{xy} \sqrt{n-2}}{\sqrt{1-r^2}} \quad (\text{Sugiyono, 2015:259})$$

- c. Test of Linear

$$Y = a + Bx$$

$$a = \frac{(\sum Y_i)(\sum X_i^2) - (\sum X_i Y_i)}{n \sum X_i^2 - (\sum X_i)^2}$$

$$b = \frac{n \sum X_i Y_i - (\sum X_i)(\sum Y_i)}{n \sum X_i^2 - (\sum X_i)^2} \quad (\text{Sugiyono, 2015:262})$$

- d. Test of The Effect

$$D = (r_{xy})^2 \times 100 \%$$

- e. Test of Sample Related

$$t = t = \frac{x_1 - x_2}{\sqrt{\frac{(n_1 - 1)S_1^2 + (n_2 - 1)S_2^2}{n + n_2 - 2} \left(\frac{1}{n_1} + \frac{1}{n_2} \right)}} \quad (\text{Sugiyono, 2015:273})$$

Note :

t = test

X_1 = Average of variable 1 (Experimental Group)

X_2 = Average of Variable 2 (Control Group)

S_1^2 = Standard deviation square (variants) of sample 1 (Experimental Group) and sample 2 (Control Group)

n = Total of Sample

n_1 = Number of cases for variable 1 (Experimental Group)

n_2 = Number of cases for variable 2 (Control Group)

l = Number Consonant

r = Correlation of product moment between X_1 and X_2

G. Statistical Hypothesis

Based on the literature and framework above , in this study the researcher formulated two alternatives of hypothesis as tentative answer to the problem in the research as following:

H_0 : There was no a significant effect of Magnet Summary Strategy on the students' achievement in writing.

H_a : There was a significant effect of Magnet Summary Strategy on the students' achievement in writing.

CHAPTER IV
DATA AND DATA ANALYSIS

A. Data

The data were collected by showing a video that contain analytical exposition text. The researcher got the score after giving the post-test and pre-test to the control and experiment classes. The results of the test were listed in the following tables:

Table 4.1
The Scores of Pre-test and Post-Test of Experimental Group

No	Students' Initial	Pre-test	Post-test
1	AN	45	75
2	AP	45	75
3	AN	50	75
4	BDP	50	80
5	BA	50	80
6	CC	40	80
7	CS	55	75
8	CDY	55	70
9	D	35	80
10	DPP	50	85
11	DPS	50	85
12	EGP	45	90

13	FR	40	85
14	FL	50	80
15	FR	35	90
16	H	45	85
17	IF	40	90
18	IKH	50	80
19	IN	45	85
20	ISK	45	85
21	LW	40	80
22	MBF	50	80
23	MY	40	80
24	MRA	35	85
25	N	40	85
26	NAA	50	85
27	REN	50	80

39	WP	40	80
40	WS	35	85
Total		1.600	2.885
Mean		40	72,125

Based on the data above, it was seen that the highest score in pre-test was 50 and the lowest score was 30. While in post-test, the highest score was 85 and the lowest was 60. Then, the table above also indicated that the mean score in pre-test was lower than in post-test, $40 < 72,125$.

B. Data Analysis

From all the data of the pre-test and post-test of experimental and control groups obtained, then the researcher analyzed the data to find out the differences of the sample's score between pre-test and post-test in the experimental group.

Table 4.3
The Difference of Score of Pre-Test and Post-Test in Experimental Group

No	Students'	Score
----	-----------	-------

39	WW	50	2500	80	6400	30
40	ZK	40	1600	85	7225	45
Total		$\sum T_1 =$ 1.795	$\sum T_1^2 =$ 81.925	$\sum T_2 =$ 3.280	$\sum T_2^2 =$ 270.000	$\sum (X1) =$ 1.485

The data in the table 4.5 showed the difference scores between pre-test and post-test in the experimental group. From the result of the test previously, the data was calculated to find out whether applying magnet summary assisted by video media on students' writing achievement. The collected data were analysis t-test formula. In experimental group, pre-test was 1795 and post-test was 3280. The differences of the pre-test and post-test were $T_2 - T_1 = 1485$.

1. The Calculation in Experimental Group

A. The calculation for total in pre-test and post-test in experimental group

a. Mean

$$\begin{aligned}
 M_1(X1) &= \frac{\sum(T_2 - T_1)}{N_1} \\
 &= \frac{1485}{40} \\
 &= 37,12
 \end{aligned}$$

b. Standard Deviation (SD)

$$\begin{aligned}
 SD_t &= \sqrt{\frac{\sum(T_2 - T_1)^2}{N}} \\
 &= \sqrt{\frac{(1485)^2}{40}} \\
 &= \sqrt{\frac{2205225}{40}} \\
 &= \sqrt{55130,625} \\
 &= 234,79
 \end{aligned}$$

B. The calculation for pre-test in experimental group

a. Mean

$$\begin{aligned}
 MT_1 &= \frac{\sum T_1}{N} \\
 &= \frac{1795}{40} \\
 &= 44,87
 \end{aligned}$$

b. Variances

$$\begin{aligned}
 S^2 &= \sum T_i^2 - \frac{(\sum T_1)^2}{N} \\
 &= 81925 - \frac{(1795)^2}{40} \\
 &= 81925 - \frac{3222025}{40} \\
 &= 81925 - 80550,625
 \end{aligned}$$

$$= 1374,37$$

c. Standard Deviation (SD)

$$SD = \sqrt{\frac{\sum T_1^2}{N}}$$

$$= \sqrt{\frac{81925}{40}}$$

$$= \sqrt{2048,125}$$

$$= 45,25$$

C. The calculation for post-test in experimental group

a. Mean

$$MT_2 = \frac{\sum T_2}{N}$$

$$= \frac{3280}{40}$$

$$= 80$$

b. Variances

$$S^2 = \sum T_2^2 - \frac{(\sum T_2)^2}{N}$$

$$= 270000 - \frac{(3280)^2}{40}$$

$$= 270000 - \frac{10758400}{40}$$

$$= 270000 - 268960$$

$$= 1040$$

c. Standard Deviation (SD)

$$\begin{aligned}
 SD &= \sqrt{\frac{\sum T^2}{N}} \\
 &= \sqrt{\frac{270000}{40}} \\
 &= \sqrt{6750} \\
 &= 82,15
 \end{aligned}$$

Table 4.4
The Calculation Table

No	X	Y	X ²	Y ²	XY
1	80	75	6400	5625	6000
2	70	75	4900	5625	5250
3	70	75	4900	5625	5250

19	65	85	4225	7225	5525
20	80	85	6400	7225	6800
21	60	80	3600	6400	4800
22	70	80	4900	6400	5600
23	75	80	5625	6400	6000
24	80	85	6400	7225	6800
25	75	85	5625	7225	6375
26	75	85	5625	7225	6375
27	70	80	4900	6400	5600
28	60	90	3600	8100	5400
29	65	90	4225	8100	5850
30	65	90	4225	8100	5850
31	80	90	6400	8100	7200
32	70	80	4900	6400	5600
33	70	80	4900	6400	5600
34	75	75	5625	5625	5625
35	70	75	4900	5625	5250
36	70	80	4900	6400	5600
37	70	80	4900	6400	5600
38	75	80	5625	6400	6000
39	80	80	6400	6400	6400
40	85	85	7225	7225	7225
Total	2.885	3.280	209.675	270.000	237650

The table 4.7 above, calculating table that explained formula of post-test in experimental and control group was implemented to find t-critical value both group as the basis to the hypothesis the research.

C. Testing The Hypothesis

Testing the hypothesis should be done in order to know whether the hypothesis is accepted or rejected.

a. The Equation of Linier Regression

$Y = a + b$ was getting by

$$a = \frac{(\sum Y_i)(\sum X_i^2) - (\sum X_i)(\sum X_i Y_i)}{n \sum X_i^2 - (\sum X_i)^2}$$

$$a = \frac{(3280)(209675) - (2885)(237650)}{40(209675) - (2885)^2}$$

$$a = \frac{687.734.000 - 685620250}{8387000 - 8323225}$$

$$a = \frac{2113750}{63775}$$

$$a = 33,14$$

$$b = \frac{n \sum X_i Y_i - (\sum X_i)(\sum Y_i)}{n \sum X_i^2 - (\sum X_i)^2}$$

$$b = \frac{40(237650) - (2885)(3280)}{40(209675) - 8323225}$$

$$b = \frac{9506000 - 8440704}{8387000 - 8323225}$$

$$b = \frac{1065296}{63775}$$

$$b = 16,70$$

$Y = a + bx$

$$= 33,14 + 16,70x$$

b. Coeficient r^2

$$r_{xy} = \frac{n \sum XY - (\sum X)(\sum Y)}{\sqrt{\{n \sum X^2 - (\sum X)^2\}\{n \sum Y^2 - (\sum Y)^2\}}}$$

$$r_{xy} = \frac{40(237650) - (2885)(3280)}{\sqrt{\{40 \sum 209675 - (2885)^2\}\{40(270000 - (3280)^2)\}}}$$

$$r_{xy} = \frac{9506000 - 9462800}{\sqrt{\{8387000 - 8323225\}\{10800000 - 10758400\}}}$$

$$r_{xy} = \frac{43200}{\sqrt{\{63775\}\{41600\}}}$$

$$r_{xy} = \frac{43200}{51507}$$

$$r_{xy} = 0,8387$$

c. Examining The Statistical Hypothesis

Ha : There was any significant effect of applying magnet summary strategy assisted by video media on students' writing achievement.

H0 : There was not any significant effect of applying magnet summary strategy assisted by video media on students' writing achievement..

With the criteria examination, Ha was accepted if $t \{1 - 1a\} < t < t \frac{\{1-1a\}}{2}$

where $t \frac{\{1-1a\}}{2}$ was getting by t distribution with $dk = n - 2$. $dk = 40 - 2 = 38$. $\alpha = 5$

% = 0,05. In the other way, H0 was rejected.

$$t_{hitung} = t = \frac{r_{xy}\sqrt{n-2}}{\sqrt{1-r^2}}$$

$$t = \frac{0,8387\sqrt{40-2}}{\sqrt{1-(0,8387)^2}}$$

$$t = \frac{5,1700}{\sqrt{0,2965}}$$

$$t = 17,4367$$

$$t_{tabel} = \left(1 - \frac{1}{2} \cdot \alpha\right) (38)$$

$$= \left(1 - \frac{1}{2} \cdot 0,05\right) (38)$$

$$= t_{0,9975}(38)$$

$$= 2,024$$

The conclusion from the calculating above, it showed that $t_{hitung} > t_{table}$ or $17,4367 > 2,024$. So, H_0 was rejected. It meant that H_a was acceptable or “there was any significant effect of magnet summary strategy on the students’ writing achievement.

d. Determining the percentage of the effect of X variable toward Y variable

$$D = (r_{xy})^2 \times 100 \%$$

$$= 0,8387^2 \times 100\%$$

$$= 0,7034 \times 100\%$$

$$= 70,34\%$$

It meant the effect of X variable toward Y variable or the effect of applying magnet summary strategy was 70,34% and 29,66% was influenced by another factors.

Based on the the result of the data analysis, the researcher found that the value of t-test (17,4367) was higher than the value of t-table (2,024). So, alternative hypothesis was accepted. It indicates that there is a significant effect of using magnet summary strategy on students’ achievement in writing.

D. Research Finding

Based on the data analysis, it was found that there was the effect of magnet summary strategy assisted by video media on students’ achievement in

writing. It was indicated by the score of t-test was higher than t-table ($17,4367 > 2,024$). It means that alternative hypothesis (H_a) was accepted.

E. Discussion

Based on the research finding, there were some points to discuss. The finding that shows that there was the effect of magnet summary strategy assisted by video media on students' achievement in writing. This finding means that magnet summary strategy by video media give the significant effect on students' achievement in writing. This research finding was in line with the findings found by Hardiansyah (2013) and Siregar (2018). The result research from Hardiansyah shows that t-test was 2,68 and t-table was 2,01. It means that, alternative hypothesis (H_a) was accepted. While, the result research from Siregar shows that t-test was 4,9704 and t-table was 2,002. It means that alternative hypothesis (H_a) was accepted.

In conclusion, this research finding and two others shows that there were a significant effect of magnet summary strategy on students' achievement.

CHAPTER V

CONCLUSIONS AND SUGGESTIONS

A. Conclusions

Based on the research finding, the conclusion was drawn that the students who were taught by using Magnet Summary Strategy got better ability in writing and its using caused a positive effect to the students' achievement in writing, which was proven from the result of the test, ($t_{\text{test}} > t_{\text{table}}$, or $17,4367 > 2,024$).

B. Suggestions

In relation to the conclusion above, suggestions were put forward as follows:

1. The teacher was suggested to apply Magnet Summary Strategy in teaching writing in the classroom as a method to help the students increasing their writing achievement.
2. For the students, this strategy is very helpful for students because it can help the students to write good summary.
3. It was recommended to other researchers who are interested in doing the relevant research to use these findings as a source of information for further related studies.

Lesson Plan in Experimental Group

RENCANA PELAKSANAAN PEMBELAJARAN (RPP)

Nama Sekolah	: SMA SMA Al-Hikmah Marelan
Mata Pelajaran	: Bahasa Inggris
Kelas / Semester	: XI / Ganjil
Materi Pokok	: Teks eksposisi analitis
Alokasi Waktu	: 1 x 2 JP (90menit)

A. Kompetensi Inti

- KI 1 :Menghayati dan mengamalkan ajaran agama yang dianutnya.
- KI 2 :Menghayati dan mengamalkan perilaku jujur, disiplin, tanggung jawab, peduli (gotong royong, kerjasama, toleran, damai), santun, responsif dan pro-aktif dan menunjukkan sikap sebagai bagian dari solusi atas berbagai permasalahan dalam berinteraksi secara efektif dengan lingkungan sosial dan alam serta dalam menempatkan diri sebagai cerminan bangsa dalam pergaulan dunia.
- KI 3 :Memahami, menerapkan, menganalisis pengetahuan faktual, konseptual, prosedural berdasarkan rasa ingin tahunya tentang ilmu pengetahuan, teknologi, seni, budaya, dan humaniora dengan wawasan kemanusiaan, kebangsaan, kenegaraan, dan peradaban terkait penyebab fenomena dan kejadian, serta menerapkan pengetahuan prosedural pada bidang kajian yang spesifik sesuai dengan bakat dan minatnya untuk memecahkan masalah.
- KI 4 :Mengolah, menalar, dan menyaji dalam ranah konkret dan ranah abstrak terkait dengan pengembangan dari yang dipelajarinya di sekolah secara mandiri, dan mampu menggunakan metoda sesuai kaidah keilmuan.

B. Kompetensi Dasar

- KD 3.10 Menganalisis fungsi sosial, struktur teks, dan unsur kebahasaan dari teks eksposisi analitis tentang topik yang hangat dibicarakan umum, sesuai dengan konteks penggunaannya.

KD 4.14 Menangkap makna dalam teks eksposisi analitis tentang topik yang hangat dibicarakan umum.

C. Indikator

- 3.10.1 Mengidentifikasi unsur kebahasaan (*simple present tense* dan *conjunctions*) dari teks eksposisi analitis.
- 3.10.2 Menjelaskan unsur kebahasaan (*simple present tense* dan *conjunctions*) dari teks eksposisi analitis.
- 4.14.1 Menyusun teks eksposisi analitis.

D. Tujuan Pembelajaran

Pada akhir pembelajaran, siswa dapat:

1. Mengidentifikasi unsur kebahasaan (*simple present tense* dan *conjunctions*) dari teks eksposisi analitis.
2. Menulis rangkuman dari teks analytical exposition yang baik

E. Materi Pembelajaran

Analytical exposition is a text that elaborates the writer's idea about the phenomenon surrounding. Its social function is to persuade the reader that the idea is important matter, and to analyze the topic that the thesis/opinion is correct by developing an argument to support it.

Generic Structure

1. Thesis: introducing the topic and indicating the writer's point of view.
2. Argument: explaining the argument to support the writer's position. The number of arguments may vary, but each argument must be supported by evidence and explanation.
3. Reiteration: restating the writer's point of view / to strengthen the thesis. We can use the following phrase to make conclusion in reiteration

Language Features

- Using relational process
- Using internal conjunction
- Using causal conjunction
- Using Simple Present Tense
- Using compound and complex sentence.
- Use word that link argument, such as firstly, secondly, and reasoning through causal conjunction, such as in addition, furthermore, however, therefore.

F. Metode

- Tanya jawab, metode pembelajaran berbasis teks.

G. Langkah-langkah Pembelajaran

1) Kegiatan Pendahuluan

Guru	Siswa	Waktu
- Memberi salam kepada siswa	- Membalas salam guru	15 menit
- Mengajak siswa berdoa	- Berdoa bersama dengan guru	
- Mengecek kehadiran siswa	- menyatakan kehadirannya dengan berkata, "I'm here."	
- mereview pelajaran tentang teks eksposisi analitis	- menjawab dan merespon teks eksposisi analitis yang diberikan oleh guru	
- menjelaskan tentang teks analisis eksposisi	- memahami pelajaran yang dijelaskan oleh guru	
- meminta siswa untuk menyampaikan pertanyaan jika ada yang tidak dimengerti	- menyampaikan pertanyaan jika ada yang tidak dimengerti	

2) Kegiatan Inti

Guru	Siswa	Waktu
- Menayangkan video dan meminta siswa untuk menulis rangkuman.	- Mengamati tayangan video dan menulis rangkuman	60 menit
- Meminta siswa melaporkan hasil temuan	- Melaporkan hasil temuan	
- memberi <i>feedback</i> pada laporan hasil temuan siswa	- mendengarkan <i>feedback</i> dari guru	

3) Kegiatan Penutup

Guru	Siswa	Waktu
- Meminta siswa menyampaikan pendapat atau perasaan atas pembelajaran yang dilakukan	- Menyampaikan pendapat atau perasaan atas pembelajaran yang dilakukan	15 menit
- Memberikan penugasan terstruktur individu dengan membaca pelajaran berikutnya	- membaca pelajaran berikutnya	
- menyampaikan rencana kegiatan pertemuan berikutnya	- mendengarkan penjelasan guru	

H. Media/ Alat dan Sumber Pembelajaran

1. Media/ Alat

- a. PapanTulis
- b. Infokus
- c. Kertas HVS

- d. Laptop
 - e. Video
2. Sumber Pembelajaran: Buku Mandiri English on Target Erlangga Kelas XI

I. Evaluasi

1. Penilaian sikap spiritual dan sosial
2. Penilaian penerapan dilakukan dengan penilaian rubrik (lembar rubrik terlampir)

The Importance of Library

I personally believe that libraries are among humanity's most important institutions for several reasons.

Firstly, most of humanity's collective knowledge is stored in libraries. Secondly, libraries protect and preserve this knowledge. They also classify for group the materials into logical and easily available divisions.

Furthermore, libraries make the materials available to everyone and even provide librarians to help us find what we need. Finally, libraries are our link to the past and our gift to the future.

From the facts above, I conclude that libraries are important institutions for humanity.

Cars and Accidents

Car is the most popular transportation. However, there are many different causes of car accidents in streets.

Sometimes accidents are caused by bad weather. Ice or snow can make roads very dangerous. Accidents also can result from problems with the car. Even a small problem like a flat tire can be serious. Bad roads are another cause of accidents. Some accidents are caused by drinking too much alcohol.

Knowing some factor causing accidents is extremely important to prevent accident while driving.

J. Rubrik Penilaian Tugas Writing

Aspect Criteria	Excellent	Good Average	Fair to Poor	Very Poor
